

## MEMORANDUM

TO: Programs, Projects and Operations Subcommittee

FROM: Amanda Grint, Water Resources Engineer

SUBJECT: Review and Recommendation of Bids Received for Platte River Landing Site Restoration

DATE: July 2, 2019

---

On July 2<sup>nd</sup>, bids were opened for the construction of the Platte River Landing Site Restoration project. A copy of the bid tabulation is attached along with the recommendation letter from Big Muddy Workshop.

The Platte River Landing Site Restoration project is located off Highway 64 along the Platte River in Douglas County (see attached map). The project consists of cleanup work to restore the park to its condition prior to the March 2019 flooding. The main tasks are to haul sand and debris, replace trees, trail and park features that were lost during the flood.

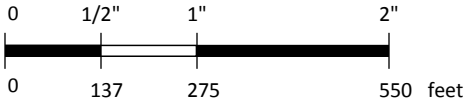

One (1) bid was received for \$284,604.22. The engineers estimate for the construction was \$325,506. Valley Corporation provided the low bid. The District has a work history with the contractor and can verify that they are able to construct the project according to specifications. The work is anticipated to begin as soon as possible after Board approval with substantial completion by September 2019.

**Staff recommends that the Subcommittee recommend to the Board that the General Manager be authorized to execute a contract with Valley Corporation for the construction of the Platte River Landing Site Restoration for the bid amount of \$284,604.22, subject to changes deemed necessary by the General Manager and approval as to form by District Legal Counsel.**

Omaha, NE 68138-3733

Dear Amanda:

Bids were received and opened earlier today, July 2, 2019, for the Platte River Landing Site Restoration project. Although four contractors obtained bid documents, only a single bid was submitted. This bid was provided by Valley Corporation with a Total Lump Sum Bid of \$284,604.22.

We have prior experience working with Valley Corporation on past, similar projects and believe they have the qualifications to adequately perform the work of this project. Therefore, we would recommend awarding the Platte River Landing Site Restoration project to Valley Corporation.

Please let me know if you have any questions or require any additional information.

Sincerely,

*Brian Pecka*

Brian Pecka, ASLA  
Senior Project Manager
