MEMORANDUM

To: Finance, Expenditures and Legal Subcommittee

From: Carey Fry, Senior Accountant

Subject: FY 2020 Audit

Date: December 4, 2020

• It is staff's recommendation that the FEL Subcommittee recommend to the Board of Directors that the FY2020 Audit Report, prepared by BerganKDV, be accepted and that the General Manager be directed to file an authenticated copy of the audit report with the Nebraska Auditor of Public Accounts and the Nebraska Natural Resources Commission.

INDEPENDENT AUDITOR'S REPORT

Board of Directors **Papio-Missouri River Natural Resources District**Omaha, Nebraska

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Papio-Missouri River Natural Resources District (the "District") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-9 and 40-41 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information on pages 42-52, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The other supplementary information is the responsibility of management and has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 30, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED JUNE 30, 2020

The Management's Discussion and Analysis of the financial performance of Papio-Missouri River Natural Resources District (the "District") provides an overview of the District's financial activities for the fiscal year ended June 30, 2020. It should be read in conjunction with the District's financial statements, which follow. The discussion primarily focuses on the District's general fund, although the proprietary funds are also analyzed.

FINANCIAL HIGHLIGHTS

- Net position increased by \$56,723,945, which is a 32.52% increase in total net position.
- Total governmental activities' net position are comprised of the following:
 - 1) Net investment in capital assets of \$180,637,061. Property and equipment, net of accumulated depreciation, is reduced for the outstanding debt related to the purchase or construction of capital assets.
 - 2) Unrestricted net position of \$41,707,715. These assets are available to maintain the District's continuing obligations. Unrestricted net position includes assets reserved for specific purposes by Board resolution but not restricted by debt covenants or laws and regulations.
- Revenues on the general fund financial statements totaled \$73,749,899. This is an increase of \$34,556,299 from last year's revenues of \$39,193,600.
- The net increase in capital assets was \$50,542,502 to a total of \$250,659,138.
- Total long-term debt of the District increased from \$62,180,615 to \$62,500,065 during the fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's Discussion and Analysis introduces the District's basic financial statements, which include the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED YEAR ENDED JUNE 30, 2020

Government-wide Financial Statements

The District's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities and a perspective of current financial resources and obligations.

Both government-wide financial statements distinguish governmental activities of the District that are principally supported by taxes and intergovernmental revenues, from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include general government administration, projects aimed at ground and surface water protection, flood threat protection, soil and wildlife conservation efforts, public services such as trail maintenance and educational materials, and recreation. The District's business-type activities include three rural water systems and four other waterway construction and preservation projects.

Statement of Net Position

The first of these government-wide statements is the Statement of Net Position. This is the District-wide statement of position presenting information that includes all of the District's assets and liabilities with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors, such as the condition of the District's capital assets, in addition to the financial information provided in this report.

Statement of Activities

The second government-wide statement is the Statement of Activities, which reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the statement of activities is to show the financial reliance of the District's distinct activities or functions on revenues provided by property tax collections.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation.

The District is comprised of the governmental fund, seven proprietary funds, and two fiduciary funds. The governmental fund encompasses essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different, with fund statements providing a distinctive view of the District's governmental fund. These statements report short-term fiscal accountability, focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near term.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED YEAR ENDED JUNE 30, 2020

Fund Financial Statements, Continued

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

A budgetary comparison schedule is included as required supplementary information to the basic financial statements for the general fund. This schedule demonstrates compliance with the District's adopted and final revised budget.

Proprietary funds generally report services for which the District charges customers a fee. These enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. The Dakota County, Washington County and Thurston County Rural Water Systems, as well as four waterway reconstruction projects, comprise the District's proprietary funds.

Proprietary fund statements provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements but with more detail for major enterprise funds. Individual fund information for non-major enterprise funds is found in combining statements in a later section of this report.

The fiduciary funds are used to account for assets held in a trustee capacity. Fiduciary fund statements focus on net position and the change in net position and are accounted for on the accrual basis. The District is the administering agent of both the Papillion Creek Watershed Partnership and the Southern Sarpy Watershed Partnership. Both are comprised of local governments that have entered into interlocal agreements to fund engineering studies addressing water quantity and quality issues in their respective drainage areas.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

Supplemental Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the District's non-major proprietary funds and expenditures of federal awards.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED YEAR ENDED JUNE 30, 2020

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the District as a whole. The following table summarizes the District's net position.

Summary of Net Position

| | Governmental Activities | | | | Business-Typ | ре А | e Activities | | |
|---|-------------------------|-----------------------|----|-------------|-----------------|------|--------------|--|--|
| | | 2020 | | 2019 | 2020 | 2019 | | | |
| Current and other assets Deferred outflow of resources Capital assets, net of | \$ | 46,460,185 668,376 | \$ | 40,477,019 | \$ 1,239,477 | \$ | 2,056,705 | | |
| accumulated depreciation | | 240,888,536 | | 191,306,291 | 9,770,602 | | 8,810,345 | | |
| Total assets | | 288,017,097 | | 231,783,310 | 11,010,079 | | 10,867,050 | | |
| Current liabilities Deferred inflow of resources | | 7,535,568 684,707 | | 5,649,917 | 253,616 | | 241,652 | | |
| Long-term liabilities | | 57,452,046 | | 60,226,931 | 1,953,928 | | 2,108,494 | | |
| Total liabilities | | 65,672,321 | | 65,876,848 | 2,207,544 | | 2,350,146 | | |
| Net position: Net investment in capital | | | | | | | | | |
| assets | | 180,637,061 | | 129,233,688 | 6,678,790 | | 6,548,507 | | |
| Restricted | | | | | 179,344 | | 179,344 | | |
| Unrestricted | | 41,707,715 | | 36,672,774 | 1,944,401 | | 1,789,053 | | |

The District reported positive balances in net position for both governmental and business-type activities. Net position of governmental activities increased by \$56,438,314, including a \$51,403,373 increase to investment in capital assets. Approximately \$27.75 million of this increase is attributable to repairs and improvements made to the District's levees by the US Corps of Engineers after extensive flooding on the Missouri, Platte, and Elkhorn Rivers in the spring of 2019.

Net position increased \$285,631 for business-type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED YEAR ENDED JUNE 30, 2020

This table summarizes the District's changes in net position from revenues and expenditures. The District is heavily reliant on property taxes to support governmental operations since taxes provide approximately 64% of the District's total governmental revenues most years.

Summary of Changes in Net Position

| | Governmental Activities | | | | | Business-Type Activities | | | | | |
|------------------------------|-------------------------|------------|--------------|------|-------------|--------------------------|-----------|--------------|----|-----------|--|

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED YEAR ENDED JUNE 30, 2020

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Fund

The General Fund is the District's primary operating fund. It is used to account for all financial resources except those required to be reported in a separate fund. The fund balance of the General Fund increased by \$5,230,435 to \$41,777,551.

Proprietary Funds

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. The District's major proprietary funds for this fiscal year include Washington County Rural Water System and the Elkhorn River Stabilization Improvement Project Area. Net position of these funds increased by \$83,605 and \$14,939 respectively. Although the Elkhorn River Project has not been classified as a major fund historically, flood-related work during this fiscal year increased the relative size of the fund. Net position of the non-major proprietary funds increased by \$187,087, and total proprietary fund net position increased by \$285,631.

BUDGETARY HIGHLIGHTS

The Papio-Missouri River Natural Resources District's Board of Directors adopts a budget each fiscal year that complies with the reporting regulations imposed by the State of Nebraska. This budget can be, but was not, modified during the year with the approval of the Board. Economic factors, such as property tax rates and the availability of federal and state funding, play a major role in the District's budgeting process.

The District adopts a budget on the cash basis of accounting in accordance with the Nebraska Budget Act.

The general fund budgeted expenditures for the current year were \$105,727,196, compared with the prior year budget of \$55,390,681. Most of this increase is attributable to a refunding bond issue of approximately \$35 million, with the remainder largely due to construction progress on the Missouri River Levee rehabilitation project. Actual budgetary expenditures were \$75,853,312 and \$33,504,270, respectively. Budgeted and actual expenditures may vary due to the timing of project construction and land acquisition, which depend on both internal and external factors.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets, net of accumulated depreciation and related debt, for governmental and business-type activities as of June 30, 2020, was \$180,637,061 and \$6,678,790, respectively. This investment in capital assets includes land, infrastructure, buildings and improvements, machinery and equipment and unamortized bond issue costs. The net investment increased 39.78% for governmental and increased 1.99% for business-type activities. The unusually large increase for governmental activities primarily results from work related to the 2019 flood as well as progress on the Missouri River levee improvements and Papillion Creek watershed projects.

MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED YEAR ENDED JUNE 30, 2020

Long-term Debt

At the end of the fiscal year, the District had \$62,500,065 in bonds and notes. \$2,108,463 of this debt is attributable to the proprietary funds for construction of and upgrades to the rural water distribution systems. \$58,250,000 is attributable to general obligation bonds issued for construction of flood control projects, \$424,297 is attributable to capital leases for the purchase of equipment, and \$1,670,000 is attributable to seller-financed land purchases. \$47,305 is outstanding on lease contracts for office equipment.

The District's authority to issue general obligation bonds, previously scheduled to expire in 2019, was extended through December 31, 2024. An additional issue is tentatively planned for fiscal year 2022 to assist in funding priority flood control reservoirs.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District adopted a budget for the 2020-2021 fiscal year with total requirements of \$110.9 million, a decrease from the 2019-20 fiscal year budget of \$119.9 million, primarily attributable to a smaller projected refunding bond issue.

COVID-19 has had no direct impact on District operations at this time. The extent to which future revenues may be affected by changes in the local or state economy are uncertain.

Factors considered in preparing the District's budget for fiscal year 2020-21 include the following:

- A total property tax assessment of \$27,566,060 on valuation of \$75.54 billion from a levy of \$0.036490 per \$100 of valuation, a decrease of 0.000894 from fiscal year 2019-20. However, the overall increase in valuation led to an increase of \$1,187,048 in the total property tax assessment.
- District projects are financed by several methods this year, including federal and/or state funding, cost sharing agreements with other local governments, and property taxes.
- The fiscal year 2020-2021 budget includes design, construction, and/or land acquisition costs for six of the nine remaining flood control reservoirs in the Papillion Creek Watershed Management Plan. These six are priority sites due to ongoing or planned development in the area and are estimated to cost a total of \$91.7 million, funded in part by watershed fees collected from zoning jurisdictions within the Papillion Creek Watershed Partnership. Progress will continue on the three structures currently under design or construction.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the District's finances, comply with finance-related laws and regulations, and demonstrate the District's commitment to public accountability. If you have questions about this report or would like to request additional information, contact the Senior Accountant at 8901 South 154th Street, Omaha, NE 68138.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Introduction

This summary of significant accounting policies of Papio-Missouri River Natural Resources District (the "District") is presented to assist in understanding the District's government-wide and fund financial statements. These financial statements and notes are representations of the District's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Organization and Principal Activity

The District is one of twenty-three natural resource districts organized under the laws of the State of Nebraska to aid in the conservation, protection, development, and management of the natural resources of the State. Furthermore, the District participates in jointly funded governmental improvement projects. These projects are cost-sharing arrangements, as the District does not necessarily retain an ongoing financial interest in or responsibility for the projects.

Reporting Entity

The District follows the standards promulgated by Governmental Accounting Standards Board ("GASB"), that define the financial reporting entity as the one consisting of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements include the transactions of the District's primary government and two fiduciary funds. The primary government has a separately elected governing body, is legally separate, and is fiscally independent of other governments. The District has no component units and is not a component unit of any other governmental entity.

Financial Statement Presentation

The accompanying financial statements of the District have been prepared in conformity with generally accepted accounting principles ("GAAP") applicable to governmental organizations in the United States. Such principles are prescribed by Governmental Accounting Standards Board ("GASB"), which is the standard-setting body for establishing governmental accounting and financial reporting principles in the United States of America. In accordance with these principles, the financial statements include government-wide financial statements and fund financial statements.

Government-wide Financial Statements

The government-wide financial statements (the statement of net position and statement of activities) report information on all the non-fiduciary activities of the primary government. Governmental activities, which are normally supported by taxes and grants from other governments, are reported separately from business-type activities, which rely to a significant extent on fees and charges to support its operations.

In the government-wide statement of net position, both the governmental and business-type activities columns are presented on a consolidated basis by column (individual funds are not presented). Because of the economic resource measurement focus and accrual basis of accounting, all financial and capital resources of the District, including long-term assets as well as long-term debt, are reported. Liabilities with maturities greater than one year are reported in two components: the amount due within one year and that due in more than one year.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Government-wide Financial Statements, Continued

The Statement of Net Position presents the District's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in four categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets. Deferred outflows of resources that are attributable to the acquisition, construction and improvement of those assets and related debt are also included in this component of net position.

Restricted:

- Expendable includes resources in which the District is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.
- Nonexpendable consists of endowment and similar type funds in which donors or other
 outside sources have stipulated, as a condition of the gift instrument, that the principal is
 to be maintained inviolate and in perpetuity, and invested for the purposes of producing
 present and future income, which may either be expended or added to principal.

Unrestricted amounts are those that do not meet the definition of the three preceding categories. These amounts often are designated, to indicate that management does not consider them to be available for general operations and often have constraints on resources that are imposed by management but can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. These revenues are subject to externally imposed restrictions to these program uses. Program revenues include charges for services, which report fees and other charges to users of the District's services, operating grants and contributions which finance annual operating activities including restricted investment income, and capital grants and contributions, which fund the acquisition, construction or rehabilitation of capital assets. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Separate financial statements are provided for governmental, proprietary, and fiduciary funds. Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. District resources are allocated to and accounted for in an individual fund based upon the purposes for which they are spent and the means by which the spending activities are controlled. The various funds are grouped into generic fund types in the fund financial statements of this report as follows:

Governmental Fund

The governmental (general) fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Fund Financial Statements, Continued

Proprietary Funds

Proprietary funds are used to account for the operation of the District's activities that are financed and operated in a manner similar to those found in private business enterprises. Generally, the intent of the governing body is that the cost and expense of providing goods or services to others on a continuing basis be financed or recovered primarily through sales or other forms of user charges. All proprietary funds are accounted for on an economic resources measurement focus. This means that all assets and liabilities (whether current or non-current) associated with their activity are included on their Statement of Net Position.

The District reports the Washington County Rural Water System and the Elkhorn River Stabilization as major proprietary funds presented individually in the financial statements. The Washington County Rural Water System fund accounts for fees charged for rural water services provided to residents in the respective counties. The Elkhorn River Stabilization fund accounts for a special assessment levy collected for the operation and maintenance of the Elkhorn Riverbed Stabilization project. The remaining non-major funds are presented as a combined total in accordance with the criteria set forth by GASB.

Fiduciary Funds

Fiduciary funds are used to account for assets held in a trustee capacity. The District is the administering agent of the Papillion Creek Watershed Partnership and the Southern Sarpy Watershed Partnership (the "Partnerships"). The Partnerships are comprised of local governments that are wholly or partially in the Papillion Creek Watershed and Southern Sarpy Watershed that have combined resources to fund engineering studies.

Governmental fund equity is reported as fund balance. For governmental funds, the fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

- a. Nonspendable This fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.
- b. Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the Board of Directors to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the District can be compelled by an external party-such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Fund Financial Statements, Continued

- c. Committed This fund balance classification includes amounts that can only be used for the specific purposes imposed by formal action (resolution) of the Board of Directors. Those committed amounts cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the Board of Directors, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
- d. Assigned Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. Assigned amounts represent intended uses established by the Board of Directors or the General Manager delegated that authority by the Board of Directors.
- e. Unassigned This fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and the unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Measurement Focus/Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues from property taxes are recognized in the period levied, regardless of when the cash is collected. Grants are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this period, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Grants are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Proceeds from long-term debt and acquisitions under capital leases are reported as other financing sources. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures, such as principal and interest on general long-term debt, and claims and judgments, are recognized under the modified accrual basis of accounting when the related liability is due.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Measurement Focus/Basis of Accounting, Continued

The proprietary and fiduciary fund financial statements are accounted for using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows. Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as needed.

Cash and Cash Equivalents

For financial reporting purposes, the District classifies all highly-liquid investments with original maturities of three months or less as cash equivalents.

Investments

Investments are recorded at fair value which approximates cost. The District's investment policy allows investment in U.S. government obligations and short-term interest bearing investments consisting of certificates of deposit and other income producing securities. It is also the District's policy to report interest earned but not received in a separate account from the principal.

Taxes Receivable

Delinquent taxes are considered fully-collectible so no allowance for uncollectible taxes is considered necessary. Tax amounts not received within sixty days are considered deferred revenue in the governmental fund financial statements.

Inventories

The proprietary funds' inventories, consisting primarily of maintenance supplies, are stated at cost. Cost is determined using the first-in, first-out method.

Capital Assets

Capital assets are recorded at cost. Expenditures for major additions and improvements over \$5,000 are capitalized and minor replacements, maintenance, and repairs are charged to expense accounts as incurred. Interest costs incurred on funds used to construct property, plant, and equipment are not capitalized and are not included in the historical cost of the asset.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Capital Assets, Continued

When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation of the individual asset are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method for financial statement purposes. The estimated useful lives for significant capital asset categories are as follows:

| | <u>Years</u> |
|---|--------------|
| Capital improvements and infrastructure | 7-100 |
| Buildings and improvements | 20-30 |
| Vehicles and equipment | 3-10 |
| Water distribution systems | 25-50 |

In the governmental fund financial statements, structural improvements (reservoirs, drainage systems, or any other projects) constructed by the District for any of its purposes are recorded as expenditures at the time of construction. In addition, major acquisitions of land that may have a future saleable value associated with project costs are reported as capital improvements and are recorded as a current period governmental fund expenditure.

In the government-wide financial statements, structural improvements, land acquisitions, equipment purchases, public domain costs, infrastructure costs (such as dams, levees, reservoirs and drainage systems), and similar assets are included as capital assets. The District records proposed infrastructure at the historical cost of the land until the actual infrastructure construction costs are incurred and capitalized.

Compensated Absences

The District's employees are granted annual leave and sick pay in varying amounts based on length of service and actual hours worked. Annual leave and unused sick pay may be carried over at year-end up to 53 days and 180 days, respectively. After one year of service, employees are entitled to all accrued vacation leave and 25% of accrued sick leave, upon termination.

Property Taxes

Property taxes are levied by the counties on December 31 and are delinquent if not paid by March or April 1 and August or September 1 following the levy date. The seven counties located within the District collect the taxes levied by the District. The portion of the property taxes levied by the District is remitted from the counties as the taxes are collected, less a one percent commission. For fiscal year 2019-20, the taxes levied totaled \$26,379,013 at a tax levy rate of \$0.037384 per \$100 of valuation on a total valuation of \$70,562,081,104.

The placement of a lien against property with delinquent taxes in the various counties is at the discretion of the respective county attorneys. However, the vast majority of delinquent property taxes are purchased through transactions called tax certificate sales. In the event the property owner does not pay the property taxes to the County Treasurer within three years, the holder of the tax certificate has the right to take ownership of the property.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Use of Estimates

Preparing the District's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocation of Indirect Expenses/Interfund Activity

The District is responsible for paying all employee wages and vehicle and fuel expenses of the rural water district proprietary funds. The portion of these expenses directly attributable to the proprietary funds, plus a 10% surcharge to cover administrative costs, is billed to and reimbursed by each rural water district. General administration services include overall District management, centralized budgetary formulation and oversight, accounting, payroll, investing and cash management, personnel services, and other general administration services. Services provided are treated as revenues and expenses in the respective funds. The actual amount of indirect cost reimbursement received by the District at June 30, 2020, was \$463,354. These reimbursements are included as an offset in the general administration expenses in the Statement of Activities.

Cost Sharing Reimbursements

The District participates in multiple cost sharing agreements with various other governmental entities, such as the City of Omaha or other area natural resource districts, on a regular basis. These agreements provide funding for recreational trails, water drainage systems, and other improvements that benefit the general public. The District's share of the cost is stated in each of the cost sharing agreements, most often as a maximum amount to be paid. The District normally does not retain an interest in the projects, with the city or other governmental entities providing the routine maintenance, as necessary.

Economic Dependency

The District receives the majority of its revenues from property tax rates subject to legislative change and from various grants funded by federal, state, and local governments.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position or balance sheet will sometimes report a separate section for deferred outflows of resources. This represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (as either an expense or expenditure) until that period. The District has one item that qualifies for reporting in this category and is reported in the government-wide statement of net position. A deferred charge on a bond refunding results from a difference in the carrying value of refunded debt from its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding bonds.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that period. The District has two items that qualify for reporting in this category: Unavailable revenue received after the availability period. This includes property taxes plus other local taxes and fees received after 60 days. They are reported as deferred inflows on the governmental funds balance sheet and will be recognized next year.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Accounting Changes

In June 2017, the Government Accounting Standards Board ("GASB") issued Statement No. 87, Leases, which requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows or outflows of resources based on the payment provisions.

The District adopted this standard in the current year and has not applied the cumulative effect as a restatement of the beginning net position as prior periods are not presented and the impact is immaterial.

The impact of adoption on the Financial Statements includes the recognition of lease receivable and a deferred inflow of resources related to lease income and an intangible right of use asset and lease liability for equipment leases.

See Notes 8 and 9 for additional information related to our lease arrangements.

2. COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

An annual budget is adopted each fiscal year for the General and Proprietary Funds on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America ("GAAP") as required by statute. The District follows these procedures in establishing the budgetary data reflected in the required supplementary information in accordance with the statutory requirements of the Nebraska Budget Act:

On or before August 1, District management prepares and transmits a budget for each District fund showing the projected requirements, outstanding warrants, operating reserve, cash on hand at the close of the preceding fiscal year, projected revenue collected from sources other than property tax and amount to be raised by property taxation. At least one public hearing must be held by the District's Board of Directors.

On or before September 20, the budget is adopted by the Board of Directors and the amounts provided therein are appropriated. Once approved by the Board of Directors, the legally adopted budget can be modified only with the approval of the Board. No supplemental appropriations or modifications were made from the original budget.

All appropriations lapse at the end of the budget year.

The District Board is authorized to transfer budgeted amounts between departments within any fund through resolution. The Board must approve certain accounts that exceed 110% of their budgeted amount if District personnel provide reasonable justification for doing so before the expenditures occur.

The Statement of Revenues, Expenditures, and Changes in Fund Balances – Actual and Budget (Budgetary Basis) – Governmental Fund presents comparisons of legally adopted budgets to actual data prepared in accordance with the accounting basis indicated above.

For the year ended June 30, 2020, the District met all the budgetary requirements with the State of Nebraska.

3. DEPOSITS AND INVESTMENTS

Statutes authorize the District to invest excess cash in deposits at banks designated as depositories of the District, certificates of deposit, time deposits and in any securities in which the State investment officer is authorized to invest and as provided in the investment guidelines of the Nebraska Investment Council.

Deposits and investments consisted of the following at June 30, 2020:

| | | General | Proprietary |
|-----------------------------------|---------------|---------------|--------------|
| | Total | Funds | Funds |
| Checking accounts and petty cash | \$ 17,249,391 | \$ 16,355,351 | \$ 894,040 |
| Cash on hand at County Treasurers | 614,617 | 614,617 | |
| Certificates of deposit | 1,089,350 | 50,000 | 1,039,350 |
| Investments | 13,296,625 | 13,296,625 | |
| Total | \$32,249,983 | \$ 30,316,593 | \$ 1,933,390 |

The carrying amount of the District's deposits, including Fiduciary funds, was \$20,327,053 and the bank balances were \$20,404,871 at June 30, 2020. Certificates of deposit have been included in the bank and book balances for cash. At June 30, 2020, \$1,425,982 of the District's deposits were not covered by federal depository insurance coverage, the full faith and credit of the United States government or pledged securities held by the bank in the District's name.

Investments are stated at cost, which at June 30, 2020 approximates fair value. For fiscal year 2020, the District's investments consisted of \$1,089,350 of certificates of deposit and \$13,296,625 deposited in the Nebraska Public Agency Investment Trust (NPAIT).

NPAIT is a public entity investment pool operated under the direction of a Board of Trustees and specifically designed for Nebraska Public Agencies. Accordingly, its portfolio at all times consists solely of instruments in which Public Agencies are permitted to invest funds under Nebraska law. All net income of the trust is determined as of the close of business on each banking day and is credited thereafter pro rata to each participant's account. Net income which has accrued to each participant is converted as of the close of business of each calendar month into additional units which thereafter are held in each participant's trust account. Since net income of the funds is allocated among participant's each time net income is determined, the net asset value remains at \$1.00 per unit. Securities held by NPAIT are not held in the District's name.

The District records all interest revenue related to investment activities in the respective funds.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets.

Assets and liabilities are classified into one of the following categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that are not corroborated by market data.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. All of the District's investments, as of June 30, 2020 are categorized as level 2 investments.

3. DEPOSITS AND INVESTMENTS, CONTINUED

The District mitigates the following types of deposit and investment risks through compliance with the State Statutes and through compliance with its investment policies. However, the District has not adopted a policy to manage interest rate risk. The three types of deposit and investment risks are the following:

- <u>Custodial Credit Risk</u> for deposits and investments, custodial credit risk is the risk that in the event of
 the failure of a bank or other counterparty, the District will not be able to recover the value of its
 deposits or investments or collateral securities in the possession of a third-party.
- <u>Credit Risk</u> for deposits and investments, credit risk is the risk that a bank or other counterparty
 defaults on its principal and/or interest payments owed to the District.
- <u>Interest Rate Risk</u> for deposits and investments, interest rate risk is the risk that the value of deposits and investments will decrease as a result of a rise in interest rates.

4. RESERVED/DESIGNATED FUNDS

The Board of Directors, by resolution, has established a sinking fund and reserved cash accounts for various purposes. All of the accounts are fully funded at their required levels at June 30, 2020. The following is a summary of the reservations placed on cash and investments for the year ended June 30, 2020:

General Sinking Funds:

| Unrestricted, but Reserved Certificate of Deposit | \$ 50,000 |
|--|------------------|
| Unrestricted, but Reserved Cash Accounts: | |
| Reserved for Wetland Mitigation and the development of future wetlands. | 5,473 |
| The Board of Directors, by resolution has reserved funds to be spent on costs incurred for Watershed Plan Projects. | 9,112,474 |
| The Board of Directors, by resolution and in accordance with the Interlocal Cooperation Act Agreement, has reserved funds to reimburse parties to this agreement that incurred costs as a result of the removal of ice jams. | 140,225 |
| The Board of Directors, by resolution has reserved funds to be spent on costs incurred proactively controlling noxious weeds along the Lower Platte River. | 106,141 |
| The Board of Directors, by resolution has reserved funds to be spent on costs incurred for flood protection from high flows on the Missouri River. | 11,532,518 |
| Total general fund reserves | \$ 20,946,831 |

The District does not have any restricted cash accounts as of June 30, 2020.

Proprietary Sinking Funds:

In compliance with loan covenants for the notes described in Note 8, the Proprietary funds have restricted \$179,344. Thurston County has restricted a certificate of deposit in the amount of \$43,549 and Washington County Rural Water has a restricted certificate of deposit in the amount of \$135,795.

5. DUE FROM FUNDING AGENCIES

Revenue from governmental grants and contracts are recognized as earned when all applicable eligibility requirements are met. Funds received from the various agencies less than or greater than the expenditures of the program are recorded as assets or liabilities, respectively. At June 30, 2020, \$3,836,869 was due from other governmental agencies.

The District has entered into several construction agreements that involve reimbursement from the federal government for a portion of the District's expenses associated with those construction projects. At June 30, 2020, the District had receivables due from the federal government in the amount of \$596.690.

6. INTERNAL BALANCES/INTERFUND PAYABLES AND RECEIVABLES

Outstanding balances between funds reported as "due to/due from other funds" include outstanding charges by one fund to another for services, goods, or other miscellaneous receivables/payables between funds. Balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." Interfund balances at June 30, 2020 consisted of the following individual fund receivables and payables:

| Due to | Due from | Amount |
|--------------|-------------------------------------|---------------|
| General Fund | Thurston County Rural Water | \$ 7,672 |
| General Fund | Washington County Rural Water | 39,838 |
| General Fund | Dakota County Rural Water | 33,507 |
| General Fund | Elkhorn River Stabilization | 735,635 |
| General Fund | Elk/Pigeon Creek Drainage | 5,434 |
| General Fund | Western Sarpy Drainage | 11,132 |
| General Fund | Southern Sarpy Watershed Parnership | 159 |
| Total | | \$ 833,377 |

7. INTERFUND TRANSACTIONS

The District had interfund transfers of \$83,829 from the General fund to the Dakota County Rural Water fund for the year ended June 30, 2020. The general fund is contributing part of the cost for Dakota County Rural Water to construct a water main extension, as there will be a benefit to the District's Danish Alps Recreation Area campground, currently relying on poor quality well water.

8. CAPITAL ASSETS

The following is a summary of the capital assets of the governmental funds. In the government-wide financial statements, these amounts are included in the Statement of Net Position. These amounts are not reported in the governmental fund financial statements.

| | Balance June 30, 2019 | Additions | Transfers/ Deletions | Balance June 30, 2020 |
|--|---------------------------------------|---------------|-------------------------|--------------------------|
| Not depreciated | · · · · · · · · · · · · · · · · · · · | | | |
| Land | \$ 58,939,281 | \$ 2,274,782 | \$ (437,843) | \$ 60,776,220 |
| Construction in progress | 24,951,539 | 30,699,436 | (4,355,479) | 51,295,496 |
| | 83,890,820 | 32,974,218 | (4,793,322) | 112,071,716 |
| Depreciated | | | | |
| Capital improvements and infrastructure | 180,018,585 | 20,437,696 | 4,319,479 | 204,775,760 |
| Buildings and improvements | 7,627,015 | 41,686 | | 7,668,701 |
| Vehicles and equipment | 5,533,881 | 727,931 | (462,170) | 5,799,642 |
| Intangible assets | 77,528 | | | 77,528 |
| | 193,257,009 | 21,207,313 | 3,857,309 | 218,321,631 |
| Less accumulated depreciation and amortization | (85,784,581) | (4,026,989) | 306,759 | (89,504,811) |
| | 107,472,428 | 17,180,324 | 4,164,068 | 128,816,820 |
| | <u>\$ 191,363,248</u> | \$ 50,154,542 | \$ (629,254) | \$ 240,888,536 |

The governmental funds allocated depreciation and amortization expense in the government-wide financial statements to the primary government functions as follows:

| General administration | \$ 415,977 |
|---|-----------------|
| Flood control | 2,974,731 |
| Water quality | 6,120 |
| Recreation | 630,161 |
| Total depreciation and amortization expense | \$ 4,026,989 |

The following is a summary of the capital assets of the Proprietary Funds:

| | Balance June 30, 2019 | Additions | Transfers/ Deletions | Balance June 30, 2020 |
|--|--------------------------|------------|-------------------------|--------------------------|
| Not depreciated | | | | |
| Land | \$ 214,215 | \$ | \$ | \$ 214,215 |
| Construction in progress | | 83,829 | | 83,829 |
| | 214,215 | 83,829 | | 298,044 |
| Depreciated | | | | |
| Capital improvements and infrastructure | 11,053,050 | 983,337 | | 12,036,387 |
| Vehicles and equipment | 153,596 | 39,070 | (23,161) | 169,505 |
| Intangible assets | 18,719 | | | 18,719 |
| | 11,225,365 | 1,022,407 | (23,161) | 12,224,611 |
| Less accumulated depreciation and amortization | (2,621,135) | (154,079) | 23,161 | (2,752,053) |
| | 8,604,230 | 868,328 | | 9,472,558 |
| | \$ 8,818,445 | \$ 952,157 | \$ | \$ 9,770,602 |

9. LONG-TERM LIABILITIES

General Fund Long-Term Debt:

The following is a summary of the long-term debt for the year ended June 30, 2020. In the government-wide financial statements, this amount is included in the Statement of Net Position. This amount is not reported in the governmental fund statements.

| Fund | Series | Due Date | Principal Payable | Interest Rates | Principal Balance |
|---------|-----------------|-------------------|----------------------|-------------------|----------------------|
| General | 2015 | December 2030 | Semi-Annually | 1.10% to 4.00% | \$ 1,090,000 |
| General | 2017 | December 2033 | Semi-Annually | 3.00% to 5.00% | 16,250,000 |
| General | 2018 | December 2032 | Semi-Annually | 1.40% to 3.25% | 7,675,000 |
| General | 2019 | December 2031 | Semi-Annually | 2.10% to 2.80% | 33,235,000 |

| | \$ 60,387,325 | \$ | 12,776,902 | \$ | 2,112,740 | \$ | 441,375 | \$ | 62,500,065 | \$ | 13,218,277 | | |

Compensated Absences:

The estimated current portion of the liability for vested vacation benefits and sick leave is \$281,579 and \$60,797 at June 30, 2020, respectively. These amounts are recorded as expenditures and liabilities in the General Fund in both the government-wide and fund financial statements. The long-term portion is \$132,675 and \$334,313, respectively, at June 30, 2020. These amounts are recorded as non-current liabilities in the government-wide Statement of Net Position and are not recorded in the governmental fund financial statements. The amount of unvested sick leave benefits payable amounts to \$1,185,330 at June 30, 2020, and is not reported as an expenditure or liability in any of the District's June 30, 2020 financial statements.

The change in compensated absences for the year ended June 30, 2020 was as follows:

| Governmental-type Activity: | Beginning Balance | Additions | Reductions | Ending Balance | Due Within One Year |
|--------------------------------|----------------------|-----------|-------------|-------------------|------------------------|
| Compensated Absences | \$ 753,553 | \$316,147 | \$(260,337) | \$ 809,363 | \$ 342,376 |

10. GOVERNMENTAL FUND BALANCE CLASSIFICATIONS

For governmental funds, the fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The District has identified fund balances on the Balance Sheet-Governmental Fund as of June 30, 2020 as follows:

| Nonspendable Prepaid expenses | | \$ | 290,862 |
|--|---|----|------------|
| Committed Wetland mitigation Watershed fees Ice jam Lower Platte weed Missouri River Ievee Total committed | \$ 5,473 9,112,474 140,225 106,141 11,532,518 | | 20,896,831 |
| Assigned Uninsured liability | | | 50,000 |
| Unassigned | | _ | 20,539,858 |
| Total fund balance | | \$ | 41,777,551 |

11. EMPLOYEES' RETIREMENT PLAN

All of the District's eligible employees participate in the Nebraska Association of Resources Districts Employees' Governmental Retirement Plan, a statewide multiple-employer retirement system covering all eligible employees of Natural Resources Districts within the State of Nebraska. The plan is a qualified defined contribution plan under applicable IRS and DOL regulations.

All employees who are employed for a minimum of six months, are regularly scheduled to work at least thirty-seven and one-half hours per week, and are age nineteen or older are eligible to participate in the retirement plan. The District requires all full-time employees to participate. Participants become fully vested after five years, which is applicable only to the employer's contribution, at a rate of 20% at the end of each year.

Plan participants are required to contribute 5.5% of their compensation each pay period, and the District is required to contribute 6.0% of the employee's compensation for each pay period. The District's contributions for the year ended June 30, 2020 were \$209,393, which were the required contributions. Plan forfeitures, if any, are allocated to the other active participants in the plan.

12. COMMITMENTS AND CONTINGENCIES

The District has committed future funds to several ongoing and new projects and cost share agreements. The total commitments undersigned contracts at year-end were approximately \$31,653,335. Since the future expenditures will be included in the District's future budgets and are part of the District's function, these commitments have not been recorded in the District's financial statements.

12. COMMITMENTS AND CONTINGENCIES, CONTINUED

The District engages in land development projects and occasionally invokes eminent domain to acquire the required land to undertake the project. The value of the land acquired by the District when eminent domain is invoked is determined by either a board of appraisers in the affected county, or through the judiciary. The amount of payments that may be required for land, if any, is unknown at June 30, 2020.

The District participates in various federal and state assisted grant and contract programs that are subject to review and audit by the grantor agencies. Entitlement to these resources is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal and state regulations, including the expenditure of resources for allowable purposes. Any revision or disallowance resulting from a federal or state audit may become a liability of the District. The District's management believes such revisions or disallowances, if any, will not be material to the accompanying financial statements.

Certain conditions may exist as of the date of the financial statements which may result in a loss to the District, but which will only be resolved when one or more future events occur or fail to occur. The District's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the District or unasserted claims that may result in such proceedings, the District's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein. At June 30, 2020, a reasonable estimate could not be determined for any potential loss contingencies.

13. FIDUCIARY FUNDS

Papillion Creek Watershed Partnership

The Papillion Creek Watershed Partnership ("PCWP") was created in 2001 through an inter-local agreement to proactively deal with the demands on the Papillion Creek drainage area and to develop an implementation plan that addresses solutions to water quantity and quality problems. The Papillion Creek Watershed consists of the land area that conveys water to the Missouri River. The PCWP is comprised of nine local governments that are wholly or partially in the Papillion Creek Watershed. These local governments fund engineering studies, but do not do any actual construction projects. The District is the administering agent.

Southern Sarpy Watershed Partnership

The Southern Sarpy Watershed Partnership ("SSWP") was created in 2016 through an inter-local agreement to address issues related to surface water quality and storm water quantity in the Watershed by establishing and implementing regionally common goals and standards for the development of the Watershed. The Southern Sarpy Watershed consists of the land area that conveys water to the Platte River. The SSWP is comprised of six local governments that are wholly or partially in the Sothern Sarpy Watershed. These local governments fund engineering studies, but do not do any actual construction projects. The District is the administering agent.

14. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft, damage to, or destruction of assets, errors or omissions, injuries to employees or acts of God. These risks are transferred to independent insurance carriers and no self-insurance program is maintained by the District. District management believes adequate coverage exists for potential exposures as of June 30, 2020. The District did not pay any settlement amounts, which exceeded its insurance coverage for the years ending June 30, 2020, 2019, or 2018.

15. SUBSEQUENT EVENTS

Management has evaluated subsequent events through November 30, 2020, the date which these financial statements were available to be issued. The outbreak of COVID-19 (the coronavirus) in early 2020, has caused operational disruptions to many organizations around the world. The extent of the impact may be both direct and indirect and will vary based on the duration of the outbreak, the organization's location, industry, and customer and supplier diversification. An estimate of the effect the outbreak may have on the District's financial statements cannot be determined at this time.

On September 15, 2020, the District issued \$21,685,000 in refunding bonds with an average interest rate of approximately 1.68 percent for a partial advance refunding of \$12,380,000 of the outstanding bond from the 2017 series and \$7,675,000 of the outstanding bond from the 2018 series with an average interest rate of 3.12 percent. As a result of this refunding, the District decreased its total debt service payment over the next 14 years by approximately \$1,352,367, and obtained an economic gain (difference between present values of the debt service payments on the old and new debt) of approximately \$1,200,894. These bonds were issued at par value and had bond issue costs of \$280,377. The District received \$3,696 and deposited \$21,400,927 of net proceeds into an escrow account to pay the principal and interest on the refunded bond on the allowed call dates.

SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGE IN FUND BALANCE ACTUAL AND BUDGET (BUDGETARY BASIS) GOVERNMENTAL FUND FOR THE YEAR ENDED JUNE 30, 2020

See Accompanying Notes to Budgetary Comparison Schedule.

NOTES TO BUDGETARY COMPARISON SCHEDULE FOR THE YEAR ENDED JUNE 30, 2020

NOTE 1 - BASIS OF ACCOUNTING

The accompanying budgetary comparison schedule is presented on the modified cash basis of accounting accepted or approved by the State of Nebraska. Under this basis of accounting, encumbered cash is considered an expenditure and is reported as a disbursement in the year the cash is encumbered.

NOTE 2 – BUDGET LAW

The District is required by state law to hold public hearings and adopt annual budgets for all funds on the cash basis of accounting. Total expenditures for each fund may not exceed the total budgeted expenditures. Any revisions to the adopted budget of total expenditures to any fund require a public hearing.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors **Papio-Missouri River Natural Resources District** Omaha, Nebraska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Papio-Missouri River Natural Resources District (the "District"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Board of Directors **Papio-Missouri River Natural Resources District**Omaha, Nebraska

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Papio-Missouri River Natural Resources District (the "District") for the year ended June 30, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you dated April 16, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the District's financial statements are related to tax receivable, the useful lives of depreciable assets and allowances on accounts receivable. We evaluated the key factors and assumptions used to develop these estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements relate to risks associated with deposits and investments; capital assets; due from funding agencies; and long-term liabilities.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. No such misstatements were identified.

Board of Directors **Papio-Missouri River Natural Resources District**November 30, 2020

Page Two

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 30, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Proper internal accounting controls require segregation of duties so that no one individual has access to both the accounting records and cash items, or handles a transition from inception to completion. To combat this risk the District has placed monitoring controls in place to review reconciliations and financial statements. We recommend that District continue to monitor these activities and make sure segregation of duties is achieved.

Other Matters

We applied certain limited procedures to the management's discussion and analysis and budgetary schedules, which are Required Supplementary Information ("RSI") that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were not engaged to report on the other supplementary information schedules, which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

This information is intended solely for the use of the Board of Directors and management of the District and is not intended to be, and should not be, used by anyone other than these specified parties.
