

Water Works 2024

EVENT DETAILS:

Learn all about water and its importance to Nebraska at Water Works, a full-day educational experience. Designed exclusively for 5th grade students, this environmentally-focused field day incorporates active recreation with education about the complex life of water and its impact in our lives as Nebraskans. Each class will attend six water related sessions taught by experts in the field from a variety of local and state agencies. This year, **cost of participation is \$80.00 per classroom** to help with invoicing, billed by the University of Nebraska - Lincoln prior to the event.

REGISTRATION:

Go to: www.papionrd.org/education/water-works/

Registration is open January 26 through Feb. 9, 2024.

Fill out the required classroom information. In early March, schools will be selected and notified of the date they are to attend.

*Each 5th grade classroom from a school must register. If your school is chosen, all classrooms that registered will be selected to attend. Individual classes rotate separately at the event.
