*Approved by the Papio-Missouri River NRD in accordance with District Policy 17.35.*

Papio NRD Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Title: \_\_\_\_\_

## APPLICATION AND APPROVAL PROCEDURE

1. The applicant shall determine whether proposed activity (building, filling, drainage work, etc.) will impact a regulated wetland, streambank, or waters of the United States. This determination needs to be made by a qualified professional in consultation with the Regulatory office of the U.S. Army Corps of Engineers (USACE).
2. If wetlands or a streambank are impacted, applicant must contact the Regulatory office of USACE, to obtain a Section 404 permit application and indicate interest in using a Papio-Missouri River NRD (Papio NRD) wetland/streambank banking site as mitigation.
3. Applicant must contact the Papio NRD and obtain a copy of an "Application for Credit" form along with information on available banking site(s) and price(s).
4. The applicant must file a completed 404 permit application with USACE which indicates their intent to use credit from a Papio NRD bank site to mitigate for proposed impacts.
5. The applicant will provide a copy of the 404 permit application to the Papio NRD.
6. The USACE will determine if the designated Papio NRD banking site is acceptable mitigation for the impacted area. This will entail consultation with the Papio NRD and the applicant.
7. The USACE will notify the Papio NRD and applicant of the approval or denial to use a Papio NRD banking site as mitigation.
8. Applicant will file a completed "Application for Credit" with the Papio NRD and place appropriate funds (Total Price) in escrow with the District. Applicant's signature is required.
9. The Papio NRD will approve or deny the "Application for Credit" and notify the applicant and USACE of such approval or denial. If approved, the District will provide a copy of the signed "Application for Credit" to the applicant and USACE. If denied, funds in escrow will be returned to the applicant together with any interest earned.
10. USACE will publish required notice of intent to issue the 404 permit.
11. USACE will approve or deny 404 permit and notify applicant and NRD of such approval or denial. If approved, USACE will provide a copy of the approved permit to the Papio NRD and applicant. If denied, funds in escrow will be returned to the applicant together with any interest earned.
12. The Papio NRD will report an accounting of credits used and available in the Wetland & Streambank Mitigation Bank on an annual basis.

*For more information on the Application and Approval Procedure, contact the Papio-Missouri River NRD Water Resources Engineer at (402) 444-6222 or [papadmin@papionrd.org](mailto:papadmin@papionrd.org)*
