## Volume 1

|                                                                 | <u>Page</u>   |
|-----------------------------------------------------------------|---------------|
| <b>SECTION 1.0 – INTRODUCTION</b>                               | <b>1</b>      |
| 1.1 The National Flood Insurance Program                        | 1             |
| 1.2 Purpose of this Flood Insurance Study Report                | 2             |
| 1.3 Jurisdictions Included in the Flood Insurance Study Project | 2             |
| 1.4 Considerations for using this Flood Insurance Study Report  | 4             |
| <br><b>SECTION 2.0 – FLOODPLAIN MANAGEMENT APPLICATIONS</b>     | <br><b>15</b> |
| 2.1 Floodplain Boundaries                                       | 15            |
| 2.2 Floodways                                                   | 26            |
| 2.3 Base Flood Elevations                                       | 27            |
| 2.4 Non-Encroachment Zones                                      | 28            |
| 2.5 Coastal Flood Hazard Areas                                  | 28            |
| 2.5.1 Water Elevations and the Effects of Waves                 | 28            |
| 2.5.2 Floodplain Boundaries and BFEs for Coastal Areas          | 28            |
| 2.5.3 Coastal High Hazard Areas                                 | 28            |
| 2.5.4 Limit of Moderate Wave Action                             | 28            |
| <br><b>SECTION 3.0 – INSURANCE APPLICATIONS</b>                 | <br><b>29</b> |
| 3.1 National Flood Insurance Program Insurance Zones            | 29            |
| <br><b>SECTION 4.0 – AREA STUDIED</b>                           | <br><b>29</b> |
| 4.1 Basin Description                                           | 29            |
| 4.2 Principal Flood Problems                                    | 31            |
| 4.3 Non-Levee Flood Protection Measures                         | 34            |
| 4.4 Levees                                                      | 35            |
| <br><b>SECTION 5.0 – ENGINEERING METHODS</b>                    | <br><b>38</b> |
| 5.1 Hydrologic Analyses                                         | 39            |
| 5.2 Hydraulic Analyses                                          | 54            |
| 5.3 Coastal Analyses                                            | 72            |
| 5.3.1 Total Stillwater Elevations                               | 72            |
| 5.3.2 Waves                                                     | 72            |
| 5.3.3 Coastal Erosion                                           | 72            |
| 5.3.4 Wave Hazard Analyses                                      | 72            |
| 5.4 Alluvial Fan Analyses                                       | 74            |
| <br><b>SECTION 6.0 – MAPPING METHODS</b>                        | <br><b>75</b> |
| 6.1 Vertical and Horizontal Control                             | 75            |
| 6.2 Base Map                                                    | 76            |
| 6.3 Floodplain and Floodway Delineation                         | 78            |

## Volume 2

|                                                                    |                                                 |            |
|--------------------------------------------------------------------|-------------------------------------------------|------------|
| 6.3                                                                | Floodplain and Floodway Delineation (continued) | 95         |
| 6.4                                                                | Coastal Flood Hazard Mapping                    | 152        |
| 6.5                                                                | FIRM Revisions                                  | 152        |
| 6.5.1                                                              | Letters of Map Amendment                        | 152        |
| 6.5.2                                                              | Letters of Map Revision Based on Fill           | 152        |
| 6.5.3                                                              | Letters of Map Revision                         | 153        |
| 6.5.4                                                              | Physical Map Revisions                          | 153        |
| 6.5.5                                                              | Contracted Restudies                            | 154        |
| 6.5.6                                                              | Community Map History                           | 154        |
| <b>SECTION 7.0 – CONTRACTED STUDIES AND COMMUNITY COORDINATION</b> |                                                 | <b>157</b> |
| 7.1                                                                | Contracted Studies                              | 157        |
| 7.2                                                                | Community Meetings                              | 162        |
| <b>SECTION 8.0 – ADDITIONAL INFORMATION</b>                        |                                                 | <b>165</b> |
| <b>SECTION 9.0 – BIBLIOGRAPHY AND REFERENCES</b>                   |                                                 | <b>166</b> |

## Figures

### Figures – Volume 1

|                                                                          | <u>Page</u> |
|--------------------------------------------------------------------------|-------------|
| Figure 1: FIRM Index                                                     | 6           |
| Figure 2: FIRM Notes to Users                                            | 8           |
| Figure 3: Map Legend for FIRM                                            | 11          |
| Figure 4: Floodway Schematic                                             | 27          |
| Figure 5: Wave Runup Transect Schematic                                  | 28          |
| Figure 6: Coastal Transect Schematic                                     | 28          |
