

Agenda Item: 10.

## **Memorandum**

**To:** Projects, Programs, and Operations Subcommittee  
**From:** Lori Ann Laster, Stormwater Management Engineer  
**Date:** December 6, 2012  
**Re:** King Lake Buyout Program in Douglas County

---

In October the Board approved an interlocal agreement between the District, Douglas County and the City of Omaha to equally provide the local share of a buyout program in King Lake. FEMA has approved a Hazard Mitigation Grant Program application that will cover 75% of the total project cost, leaving 25% as the local share. The total estimated project cost is \$1.9 million.

On November 13, 2012, the County declined to approve the agreement. The City has not yet voted on the agreement. At this time District Staff is continuing to work with County and City staff and to seek other funding sources to cover the local share.
