

Agenda Item: 6.

Memorandum

To: Programs, Projects and Operations Subcommittee

From: Lori Ann Laster, Stormwater Management Engineer

Date: May 27, 2014

Re: P-MRNRD Regional Multi-Hazards Mitigation Plan - Grant Application to Nebraska Emergency Management Agency

In September 2006, the District worked with the Nebraska Emergency Management Agency (NEMA), U.S. Army Corps of Engineers (USACE), Nebraska Department of Natural Resources (DNR) and local emergency management agencies to provide a Regional Multi-Hazards Mitigation Plan (HMP) for the entire District. This plan benefits the District and local communities by providing a list of potential hazard mitigation alternatives, and also by increasing the potential of federal mitigation funding assistance for projects such as the District's Floodway Purchase Program. Federal funding through FEMA's Pre Disaster Mitigation Program is available to prepare and update Hazard Mitigation Plans. In 2011, an update of the 2006 plan was completed.

The HMP plan is required by FEMA to be updated every five years. The new update can be done at any time but needs to be completed by July 2016. It is anticipated that the plan update will take one year. A revised plan would not only meet our requirement to update within five years but would also:

- Make the plan compliant with FEMA's new Community Rating System manual. The Community Rating System provides discounts on flood insurance premiums for communities who use higher than FEMA minimum standards for floodplain management.
- Include communities not currently in the District's plan.
- Add information for communities already in the plan where data gaps occurred.

The estimated project cost is \$150,000 of which this grant would provide \$112,500 and District would be responsible for \$37,500. The proposed grant application is attached.

An engineering consultant will need to be retained to prepare the plan update. A timely approval of the grant application is anticipated, therefore, it is also recommended that the Chair appoint an Ad-Hoc Hazard Mitigation Plan Consultant Selection Subcommittee at the June Board meeting.

Management recommends that the Subcommittee recommend to the Board that the General Manager be authorized to execute the proposed Planning Grant Application in the amount of \$150,000 for preparation of an updated Regional Multi-Hazards Mitigation Plan for the District, and that an Ad-Hoc Hazard Mitigation Plan Consultant Selection Subcommittee be appointed.

Subgrant Planning Application

Application Title: Papio-Missouri River Natural Resources District Multihazard Mitigation Plan

Subgrant Applicant: Papio Missouri River Natural Resources District

Application Number:

Application Year: 2014

Grant Type: Planning Application

Address: 8901 S. 154th Street, Omaha, NE 68138-3621

Subapplicant Information

Name of Subapplicant Papio-Missouri River Natural Resources District

State NE

Type of Subapplicant Special Governmental District

Legal status, function, and
facilities owned:

State Tax Number:

Federal Tax Number:

Other type name:

Federal Employer Identification (EIN) 47-0542469

What is your DUNS Number? 078035185 -

Is Subapplication subject to review by Executive Order 12372
Process? No. Program is not covered by E.O. 12372

Is the Subapplicant delinquent on any Federal debt? No

Mitigation Plan

Is the entity that will benefit from the proposed activity covered by a current FEMA-approved multi-hazard mitigation plan in compliance with 44 CFR Part 201? **Yes**

If Yes, please answer the following:

What is the name of the plan? Updated Papio-Missouri River Natural Resource District HMP

What is the type of plan? Local MultiJurisdictional Multihazard Mitigation Plan

When was the current multihazard mitigation plan approved by FEMA? 08-10-2011

Describe how the proposed activity relates to or is consistent with the FEMA-approved mitigation plan.

The Papio-Missouri River NRD Multihazard Mitigation Plan Update will be prepared consistent with the State Mitigation Plan. Each natural or man-made hazard that is viewed as a possible risk to the service area will be described in detail; the vulnerability of the participating jurisdiction to the hazards will be addressed; goals, objectives, mitigation strategies and actions will be identified; relevant plans and reports will be reviewed and referenced; and mitigation plans that direct participating jurisdiction in the implementation and monitoring of measures will be included. The plan update will be a comprehensive resource document that will serve many purposes, including: enhancing public awareness and understanding, creating a decision tool for management, promoting compliance with state and federal program requirements, enhancing local policies for hazard mitigation capability, and providing inter-jurisdictional coordination. The plan will also evaluate the progress made since the previous Papio-Missouri River NRD Mitigation Plan was approved by FEMA (8-10-2011) and note successes and shortcomings within the plan. It will also suggest adjustments and introduces new measures to address different hazards. The objectives and actions developed as a part of the Papio-Missouri River Natural Resources District Multihazard Mitigation Plan will relate to, and be consistent with, the three goals outlines in the FEMA-Approved State Mitigation Plan for the State of Nebraska.

If No or Not Known, please answer the following:

Does the entity have any other mitigation plans adopted? **No**

If Yes, please provide the following information.

Plan Name	Plan Type	Date Adopted	Attachment
-----------	-----------	--------------	------------

Please identify all previous FEMA planning grants received:

Type of Grant	Performance Period		Deliverable Activity	Amount
	Beginning Date	Ending Date		
Hazard Mitigation Planning Grant	09-28-2006	08-11-2011	State and FEMA Approved Harard Mitigation Plan	\$225,000.00

Total

\$225,000.00

Does the State/Tribe in which the entity is located have a current FEMA-approved mitigation plan in compliance with 44 CFR Part 201? Yes

If Yes, please answer the following:

What is the name of the plan?

2014 State of Nebraska HMP Update

What is the type of plan?

Standard State Multi-hazard Mitigation Plan

When was the current
multihazard mitigation plan
approved by FEMA?

05-19-2014

Describe how the proposed activity relates to or is consistent with the State/Tribe's FEMA-approved mitigation plan.

The current Hazard Mitigation Plan for the state of Nebraska was approved by FEMA on 05-19-2014. The plan provides a comprehensive set of guidelines for hazard response and mitigation in the state by identifying potential risks and vulnerabilities as well as appropriate mitigation measures to reduce or eliminate long-term risk to human life, property, and environment, and promote public awareness of hazards and potential hazard mitigation actions. The plan emphasizes the need for state, tribal, and local entities to closely coordinate mitigation planning and implementation efforts. The state believes that this approach is more feasible with capability-based goals rather than hazard specific goals. This approach ensures the statewide applicability of each goal rather than focusing on a specific hazard type that may not be applicable in all regions or communities. For this reason, the state encourages all jurisdictions to update their plans every five years to strengthen the capability of local jurisdictions to participate in and receive funding through the Unified Hazard Mitigation Assistance Programs. With the approval of plans, education about programs and technical assistance from the state, local governments have increased opportunities to move forward with their mitigation goals and objectives, despite the challenges of lack of staff and funding. The Papio-Missouri River Natural Resources District Multihazard Mitigation Plan Update will be prepared consistent with the State Mitigation Plan. Each natural or man-made hazard that is viewed as a possible risk to the service area will be described in detail; the vulnerability of the participating jurisdiction to the hazards will be addressed; goals, objectives, mitigation strategies and actions will be identified; relevant plans and reports will be reviewed and referenced; and mitigation plans that direct participating jurisdiction in the implementation and monitoring of measures will be included. The plan update will be a comprehensive resource document that will serve many purposes, including: enhancing public awareness and understanding, creating a decision tool for management, promoting compliance with state and federal program requirements, enhancing local policies for hazard mitigation capability, and providing inter-jurisdictional coordination. It will also evaluate the progress made since the previous Papio-Missouri River NRD Mitigation Plan was approved by FEMA (8-10-11) and note successes and shortcomings within the plan. It will also suggest adjustments and introduces new measures to address the different hazards. The objectives and actions developed as a part of the Papio-Missouri River Natural Resources District Multihazard Mitigation Plan will relate to and be consistent with the three goals

outlines in the FEMA-Approved State Mitigation Plan for the State of Nebraska.

Scope of Work (Page 1 of 2)

Title of your proposed activity (should include the type of activity and location):

Papio-Missouri River Natural Resources District Multihazard Mitigation Plan

Proposed types of Mitigation Activity(ies):

Activity Code	Activity Name
91.1	Local Multihazard Mitigation Plan

If Other or Miscellaneous selected above, please specify:

Describe the geographic area(s) to be covered by the planning activity:

The geographic area to be covered by the Papio-Missouri River Natural Resources District Multihazard Mitigation Plan Update includes the service area of the Papio-Missouri River Natural Resources District. Jurisdictions eligible to participate in this planning process include: Burt County and the jurisdictions of Decatur, Tekamah, Tekamah-Herman Community Schools(CID NEO097, Congressional District NE-001) and Lyons-Decatur Northeast Schools. Dakota County and the jurisdictions of South Sioux City, Jackson, Dakota City, Hubbard, Homer, Homer Community Schools, Emerson-Hubbard Community School District (CID NEO094, Congressional District NE-001),and Sioux City Community Schools. Douglas County and the jurisdictions of Bennington, Waterloo, Omaha, Boys Town, Ralston, Douglas County West Community Schools, Bennington Public Schools, Millard Public Schools, Westside Community Schools, Metropolitan Community College (CID NEO098, Congressional District NE-002), University of Nebraska Medical Center (CID NEO099, Congressional District NE-002), Omaha Public School District (CID NEO095, Congressional District NE-002). Sarpy County and the jurisdictions of La Vista, Papillion, Bellevue, Gretna, Springfield, Bellevue Public Schools (CID NEO093, Congressional District NE-002), Gretna Public Schools, Papillion-La Vista Public Schools (CID NEO096, Congressional District NE-002), and South Sarpy Dist. 46. Thurston County and the jurisdictions of Winnebago, Walthill, Umo N Ho N Nation Public Schools, Walthill Public Schools, and Winnebago Public Schools. Washington County and the jurisdictions of Herman, Blair, Kennard, Fort Calhoun, Arlington, Washington, Arlington Public Schools, Blair Community Schools and Fort Calhoun Community Schools. The plan includes hazard assessments for all eligible participants within the planning area. The eligible participants will include: counties, cities, villages, school districts, NRDs, colleges, power districts, rural water districts, etc.

Source(s) of hazards specific to the geographic area to be addressed by the planning activity:

Biological, Dam/Levee Break, Fire, Freezing, Severe Ice Storm, Special Events, Toxic Substances, Crop Losses, Earthquake, Flood, Nuclear, Snow, Tornado, Chemical, Drought, Fishing Losses, Human Cause, Severe Storm(s), Terrorist, Windstorms

Scope of Work (Page 2 of 2)

Option that describes the intent of this planning application:

Update

If a plan update, describe the evaluation process of the existing plan for its strengths, weaknesses and utility:

The Papio-Missouri River Natural Resources District Multihazard Mitigation Plan Update will include an in-depth evaluation of the current FEMA-approved Papio-Missouri River NRD Mitigation Plan. This update will include a review of existing mitigation actions, an analysis of recent hazard events, the addition of further hazards, a review of any new plans or studies in the area, and coordination with stakeholders to determine any changes in local conditions and capabilities. This review will note successes and shortcomings within the plan and suggest adjustments.

Moreover, it will introduce new measures to address different hazards not previously included in the previous plan. The plan update will be a comprehensive resource document that will serve many purposes, including: enhancing public awareness and understanding, creating a decision tool for management, promoting compliance with state and federal program requirements, enhancing local policies for hazard mitigation capability, and providing inter-jurisdictional coordination.

Describe the process for implementing this planning activity, including the following plan development requirements: 1) participation of agencies, stakeholders and the public; 2) hazard identification and risk/vulnerability assessment; 3) mitigation strategy; 4) plan adoption; and 5) plan maintenance:

The primary objective of this planning initiative is to update the current Papio-Missouri River NRD Mitigation Plan, originally approved by FEMA on 8-10-11. The planning update will occur in six (6) tasks. Task 1: Kick-off Meeting, Project Management, and Quality Control. Task 2: Public Involvement and Stakeholder Participation. Task 3: Background Information, Data Collection, and Risk Assessment. Task 4: Develop Mitigation Plan. Task 5: CRS Credits for Participating Communities Task 6: NEMA and FEMA Review and Approval. The above scope will result in a state and FEMA-approved Hazard Mitigation Plan. Upon approval by NEMA and FEMA, color copies of the Hazard Mitigation Plan will be distributed to participating jurisdictions along with one CD containing an electronic version of the Plan in Microsoft Word and PDF format. The plan development process will be completed through cooperation and effort from Papio-Missouri River NRD, county and local governments, public and private schools, Nebraska Department of Natural Resources, NEMA, consulting services, and local stakeholders. The development and adoption of the plan will educate project stakeholders on how to help reduce or eliminate future risk to property/life from natural disasters, and facilitate the application for project funding, post-disaster. The governing body of each participating jurisdiction will officially adopt the plan once it approved by the state and FEMA. The Papio-Missouri River NRD will be responsible for plan maintenance.

What are the primary sources of information and data and how it will be incorporated into existing planning mechanisms?

Coordinate with the Nebraska Department of Natural Resources (NDNR) and other public agencies to review all available information such as history of flooding and other hazards, flood insurance studies (FIS), relevant studies and reports, community's needs assessments, existing strategic plans, historic maps, existing topographic maps, and other pertinent records. This task will be completed for each participating jurisdictions in the planning effort. Furthermore the consultant will assess the hazards by performing a hazard inventory record (i.e., floods, tornadoes, wild fires, snow storms, earthquakes) that identifies the risk, including estimates of the number and types of structures and infrastructure systems at risk and repetitive loss properties. Each county will gather information for the structural inventory and different land uses. It will be the County's responsibility to perform a window survey for structural inventory within the effective floodplain for communities within the counties. A structural inventory will not be collected in rural areas outside of the extraterritorial jurisdiction for participating communities.

What staff and resources will be used to implement this planning activity?

Local stakeholders will provide the needed staff and resources to aid the consultant, NDNR, NEMA, local governments, emergency management agencies, school districts, and all other contributors in the development of the updated hazard mitigation plan.

Evaluation (Page 1 of 2)

Is the recipient participating in the [Community Rating System \(CRS\)](#)? No

If yes, what is their [CRS rating](#)?

Is the recipient a [Cooperating Technical Partner \(CTP\)](#)? Yes

Is the recipient a [Firewise Community](#)? No

If yes, please provide their [Firewise Community](#) number.

Has the recipient adopted building codes consistent with the [International Codes](#)? No

Has the recipient adopted the [National Fire Protection Association \(NFPA\) 5000 Code](#)? No

Have the recipient's building codes been assessed on the [Building Code Effectiveness Grading Schedule \(BCEGS\)](#)? No

If yes, what is their [BCEGS](#) rating?

Evaluation (Page 2 of 2)

How will this mitigation activity leverage involvement of partners to enhance its outcome?

The Papio-Missouri River NRD Multihazard Mitigation Plan Update will be prepared consistent with the State Mitigation Plan. Each natural or man-made hazard that is viewed as a possible risk to the service area will be described in detail; the vulnerability of the counties and each participating jurisdiction to the hazards will be addressed; goals, objectives, and mitigation strategies and actions will be identified; and mitigation plans that direct each participating jurisdiction in the implementation and monitoring of the measures will be included. The objectives and actions developed as a part of the update will relate to and be consistent with the three goals outlined in the FEMA-Approved State Hazard Mitigation Plan for the state of Nebraska. The plan development process will be completed through cooperation and effort from the Papio-Missouri River Natural Resources District, emergency management agencies, sheriff offices, county and local governments, special purpose districts, elected officials, public and private schools, Nebraska Department of Natural Resources, NEMA, professional consulting services, and local stakeholders.

Describe how this planning activity will benefit your community and how the plan/data will be used to promote resiliency?

The primary objective of the planning initiative is to update the current Papio-Missouri River NRD Mitigation Plan. The Update will be a comprehensive resource document that will serve many purposes, including: enhancing public awareness and understanding, creating a decision tool for management, promoting compliance with state and federal program requirements, enhancing local policies for hazard mitigation capability, and providing inter-jurisdictional coordination. It will also evaluate the progress made since the previous Papio-Missouri River NRD Mitigation Plan was approved by FEMA (8-10-11) and note successes and shortcomings within the plan. It will also suggest adjustments and introduces new measures to address other potential hazards.
