

MEMORANDUM

TO: Finance, Expenditure and Legislative Subcommittee

SUBJECT: Draft FY 2010 Audit

DATE: November 4, 2010

FROM: John Winkler, General Manager

Attached is the draft FY 2010 Audit and management letter for the Papio-Missouri River NRD. Our plan is to review the draft at the November 9, 2010 FEL Subcommittee and present the final version at the December 7, 2010 FEL Subcommittee for approval. This should give everyone ample time to review the audit and its findings and recommendations

DRAFT

**INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS AND
SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

To The Board of Directors
Papio-Missouri River Natural Resources District
Omaha, Nebraska

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Papio-Missouri River Natural Resources District (the District), a political subdivision of the State of Nebraska, as of and for the year ended June 30, 2010, which collectively comprise the District's financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements of the District referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2010 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November XX, 2010, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

Management's discussion and analysis and the budgetary comparison information on pages 3 through 9 and 41 through 42 are not a required part of the financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the

**INDEPENDENT AUDITORS' REPORT ON
FINANCIAL STATEMENTS AND SUPPLEMENTAL
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS (Continued)**

required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements. The accompanying supplementary information on pages 43 through 54 is presented for purposes of additional analysis and is not a required part of the financial statements. The accompanying Schedule of Expenditures of Federal Awards on pages 55 through 56 is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

RECONCILIATION OF THE BALANCE SHEET - GOVERNMENTAL FUND TO THE STATEMENT OF NET ASSETS
June 30, 2010

Total Fund Balance - Governmental Fund		\$ 25,403,516
Amounts reported for governmental activities in the statement of net assets are different because:		
Other long-term assets:		
Receivable from developer - Dial Realty	\$ 580,000	
Accrued interest receivable	57,375	
Unamortized discount - receivable from developer	<u>(18,207)</u>	
		619,168
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the fund financial statements:		
Land and infrastructure	45,333,051	
Capital improvements	104,382,912	
Buildings and improvements	4,332,773	
Vehicles and equipment	3,701,199	
Accumulated depreciation	<u>(59,679,006)</u>	
		98,070,929
Liabilities which are not due and payable in the current period are not reported in the governmental funds:		
Compensated absences		(355,874)
Bond proceeds provide current financial resources to governmental funds. However, issuing debt increases long-term liabilities in the statement of net assets.		
Bond proceeds		(13,300,000)
Property tax revenues, not collected within 60 days of the fiscal year end, are not financial resources and, therefore, are not reported in the governmental funds.		
		<u>3,608,112</u>
Total Net Assets of Governmental Activities		<u>\$ 114,045,851</u>

**PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGE
IN FUND BALANCE - GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2010**

Net Change in Fund Balance - Total Government Fund \$ (3,893,176)

Amounts reported for governmental activities in the statement of activities are different because:

Amortization of imputed interest discount on receivable from developer 38,675

Capital outlays are reported as expenditures in governmental funds; however, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlays and capital asset expenditures:		
Land and construction in progress additions	\$ 19,160,734	
Building, vehicle, equipment, infrastructure, and capital improvement additions	<u>550,888</u>	19,711,622
Depreciation expense		(2,056,966)

Bond proceeds provide current financial resources to governmental funds. However, issuing debt increases long-term liabilities in the statement of net assets.

Bond proceeds (13,300,000)

Certain items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of:

Increase in long - term compensated absences (32,843)

Full accrual accounting records revenues when earned. Modified accrual records revenues that are measurable and available.

Difference in property tax revenue accrual (126,303)

Change in Net Assets of Governmental Activities \$ 341,009

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS
Year Ended June 30, 2010

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Papio-Missouri River Natural Resources District (the District) is presented to assist in understanding the District's government-wide and fund financial statements. These financial statements and notes are representations of the District's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Organization and Principal Activity

The District is one of 23 natural resource districts organized under the laws of the State of Nebraska to aid in the conservation, protection, development, and management of the natural resources of the State. Furthermore, the District participates in jointly funded governmental improvement projects. These projects are cost-sharing arrangements, as the District does not necessarily retain an ongoing financial interest in or responsibility for the projects.

Reporting Entity

The District follows the standards promulgated by Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, that define the financial reporting entity as the one consisting of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements include the transactions of the District's primary government and one fiduciary fund. The District has no component units and is not a component unit of any other governmental entity.

Primary Government

The primary government has a separately elected governing body, is legally separate, and is fiscally independent of other governments. The primary government of the District consists of all the organizations that comprise the legal entity.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation

Financial Statements

The financial statements of the District include the government-wide and the fund financial statements. Prior to implementation of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the financial statements emphasized fund types and account groups. In the GASB Statement No. 34 reporting model, the focus is on the District as a whole in the government-wide financial statements, while reporting additional and detailed information about the District's major governmental funds in the fund financial statements.

Government-Wide Financial Statements

The government-wide financial statements (the statement of net assets and statement of activities) report information on all the non-fiduciary activities of the primary government. Governmental activities are normally supported by taxes and grants from other governments.

Internal activities have been eliminated in the government-wide statement of net assets.

In the government-wide statement of net assets, both the governmental and business-type activities columns are presented on a consolidated basis by column (individual funds are not presented). Because of the economic resource measurement focus and accrual basis of accounting, all financial and capital resources of the District, including long-term assets as well as long-term debt, are reported. Liabilities with maturities greater than one year are reported in two components: the amount due within one year and that due in more than one year.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. These revenues are subject to externally imposed restrictions to these program uses. Program revenues include charges for services, which report fees and other charges to users of the District's services, operating grants and contributions which finance annual operating activities including restricted investment income, and capital grants and contributions, which fund the acquisition, construction or rehabilitation of capital assets. Taxes and other items not properly included among program revenues are reported instead as general revenues.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

Fund Financial Statements

Separate financial statements are provided for governmental, proprietary, and fiduciary funds. Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. District resources are allocated to and accounted for in an individual fund based upon the purposes for which they are spent and the means by which the spending activities are controlled. The various funds are grouped into generic fund types in the government-wide and fund financial statements of this report as follows:

General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Proprietary Funds

Proprietary funds are used to account for the operation of the District's activities that are financed and operated in a manner similar to those found in private business enterprises. Generally, the intent of the governing body is that the cost and expense of providing goods or services to others on a continuing basis be financed or recovered primarily through sales or other forms of user charges. All proprietary funds are accounted for on an economic resources measurement focus. This means that all assets and liabilities (whether current or non-current) associated with their activity are included on their Statement of Net Assets.

The District reports the Dakota County Rural Water Project, and the Washington County Rural Water Projects #1 and #2 as major proprietary funds presented individually in the financial statements. These funds account for fees charged for rural water services provided to residents in their respective counties. The remaining non-major funds are presented in the aggregate to comply with GASB Statement No. 34.

Fiduciary Fund

The fiduciary fund is used to account for assets held in a trustee capacity. The District is the administering agent of the Papillion Creek Watershed Partnership (the Partnership). The Partnership is comprised of local governments that are wholly or partially in the Papillion Creek Watershed that have combined resources to fund engineering studies.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

The District complies with the accounting principles generally accepted in the United States of America. The District applies all relevant GASB Pronouncements. Proprietary funds apply Financial Accounting Standards Board (FASB) Pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB Pronouncements, in which case GASB prevails.

Measurement Focus/Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues from property taxes are recognized in the period levied, regardless of when the cash is collected.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this period, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Proceeds from long-term debt and acquisitions under capital leases are reported as other financing sources. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures, such as principal and interest on general long-term debt, and claims and judgments, are recognized under the modified accrual basis of accounting when the related liability is due.

The proprietary and fiduciary fund financial statements are accounted for using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services.

Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as needed.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

For financial reporting purposes, the District classifies all highly liquid investments with original maturities of three months or less as cash equivalents.

Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments are recorded at fair value which approximates cost. The District's investment policy allows investment in U.S. government obligations and short-term interest bearing investments consisting of certificates of deposit and other income producing securities. It is also the District's policy to report interest earned but not received in a separate account from the principal.

Taxes Receivable

Delinquent taxes are considered fully collectible so no allowance for uncollectible taxes is considered necessary. Tax amounts not received within sixty days are considered deferred revenue in the governmental fund financial statements.

Inventories

The proprietary funds' inventories, consisting primarily of maintenance supplies, are stated at cost. Cost is determined using the first-in, first-out method.

Capital Assets

Capital assets are recorded at cost. Expenditures for major additions and improvements over \$5,000 are capitalized and minor replacements, maintenance, and repairs are charged to expense accounts as incurred. Interest costs incurred on funds used to construct property, plant, and equipment are capitalized and recorded as part of the asset to which it relates and are amortized over the asset's useful life.

When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation of the individual asset are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method for financial statement purposes. The estimated useful lives for significant capital asset categories are as follows:

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued)

	<u>Years</u>
Capital improvements and infrastructure	7-100
Buildings and improvements	20-30
Vehicles and equipment	3-10
Water distribution systems	25-50

In the governmental fund financial statements, structural improvements (reservoirs, drainage systems, or any other projects) constructed by the District for any of its purposes are recorded as expenditures at the time of construction. In addition, major acquisitions of land that may have a future saleable value associated with project costs are reported as capital improvements and are recorded as a current period governmental fund expenditure.

In the government-wide financial statements, structural improvements, land acquisitions, equipment purchases, public domain costs, infrastructure costs (such as dams, levees, reservoirs and drainage systems), and similar assets are included as capital assets. The District records proposed infrastructure at the historical cost of the land until the actual infrastructure construction costs are incurred and capitalized.

Compensated Absences

The District's employees are granted annual leave and sick pay in varying amounts based on length of service and actual hours worked. Annual leave and unused sick pay may be carried over at year-end up to 53 days and 180 days, respectively. After one year of service, employees are entitled to all accrued vacation leave and 25% of accrued sick leave, upon termination.

Net Assets

Invested in capital assets, net of related debt – This component of net assets consists of capital assets net of accumulated depreciation and net of outstanding balances of any debts used to finance those assets.

Restricted net assets – This component of net assets may be used only to finance specific types of transactions. The governmental fund had a total of \$13,109,775 in restricted net assets and the proprietary funds had a total of \$404,271 in restricted net assets at June 30, 2010.

Unrestricted net assets – This component of net assets does not meet the definition of either net assets invested in capital assets, net of related debt or restricted net assets.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance

Governmental fund equity is classified as fund balance. Fund balances can be reserved, unreserved-designated, and unreserved-undesignated. The portion of the fund balance that has been committed for identified purposes is a reserved fund balance.

Property Taxes

Property taxes are levied by the counties on September 20 and are delinquent if not paid by April 1 and August 22. The seven counties located within the District collect the taxes. The portion of the property taxes levied by the District is remitted from the counties as the taxes are collected, less a one percent commission. For fiscal year 2010, the taxes levied totaled \$16,667,816 at a tax levy rate of 3.2756%.

The placement of a lien against property with delinquent taxes in the various counties is at the discretion of the respective county attorneys. However, the vast majority of delinquent property taxes are purchased through transactions called tax certificate sales. In the event the property owner does not pay the property taxes to the County Treasurer within three years, the holder of the tax certificate has the right to take ownership of the property.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is not employed by the District.

Income Taxes

The District qualifies as a tax-exempt organization under Section 115 of the Internal Revenue Code. Accordingly, no provision for income taxes is required.

Budgetary Data

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Formal budgetary integration is employed as a management control device during the year for the general fund and proprietary funds.
- b. The budget is based on the reporting requirements of the State of Nebraska, which prescribe the cash basis method of reporting. The budget caption, general administration, includes the District's cash and investments of the preceding year-end.
- c. All annual appropriations lapse at year-end.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Data (Continued)

The Statement of Revenues, Expenditures, and Changes in Fund Balances - Actual and Budget (Budgetary Basis) - Governmental Fund presents comparisons of legally adopted budgets to actual data prepared in accordance with the accounting basis indicated above.

Once approved by the Board of Directors, the legally adopted budget can be modified only with the approval of the Board.

Use of Estimates

Preparing the District's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Allocation of Indirect Expenses/Interfund Activity

The District is responsible for paying all employee wages and vehicle and fuel expenses of the rural water district proprietary funds. The portion of these expenses directly attributable to the proprietary funds, plus a 15 percent surcharge to cover administrative costs, is billed to and reimbursed by each rural water district. General administration services include overall District management, centralized budgetary formulation and oversight, accounting, payroll, investing and cash management, personnel services, and other general administration services. Services provided are treated as revenues and expenses in the respective funds. The actual amount of indirect cost reimbursement received by the District at June 30, 2010, was \$301,090. These reimbursements are included as an offset in the general administration expenses in the Statement of Activities.

Cost Sharing Reimbursements

The District participates in multiple cost sharing agreements with various other governmental entities, such as the City of Omaha or other area natural resource districts, on a regular basis. These agreements provide funding for recreational trails, water drainage systems, and other improvements that benefit the general public. The District's share of the cost is stated in each of the cost sharing agreements, most often as a maximum amount to be paid. The District normally does not retain an interest in the projects, with the city or other governmental entities providing the routine maintenance as necessary.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Management has evaluated subsequent events through November XX, 2010, which is the date the financial statements were available to be issued.

Economic Dependency

The District receives the majority of its revenues from property tax rates subject to legislative change and from various grants funded by federal, state, and local government entities.

NOTE B – DEPOSITS AND INVESTMENTS

Deposits and investments consisted of the following at June 30, 2010:

	Total	General Fund	Proprietary Funds
UNRESTRICTED AND UNRESERVED:			
Cash and cash equivalents	\$7,349,461	\$5,921,415	\$1,428,046
Cash on hand at County Treasurers	515,004	515,004	-
	7,864,465	6,436,419	1,428,046
Certificates of deposit	660,459	-	660,459
Total unrestricted and unreserved cash, cash equivalents and certificates of deposit	8,524,924	6,436,419	2,088,505
UNRESTRICTED BUT RESERVED:			
Cash and cash equivalents	440,508	440,508	-
Certificates of deposit	50,000	50,000	-
Total unrestricted but reserved cash, cash equivalents and certificates of deposit	490,508	490,508	-
RESTRICTED:			
Cash and cash equivalents	13,449,775	13,109,775	340,000
Certificates of deposit	64,271	-	64,271
Total restricted cash, cash equivalents and certificates of deposit	13,514,046	13,109,775	404,271
Total cash and certificates of deposit	<u>\$22,529,478</u>	<u>\$20,036,702</u>	<u>\$2,492,776</u>

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE B – DEPOSITS AND INVESTMENTS (Continued)

Pooled deposits, consisting of cash and certificates of deposit, as categorized for level of risk, cannot be reasonably apportioned between the General Fund and the Proprietary Funds.

At June 30, 2010, the District's deposits at all financial institutions are fully insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by investments held by these financial institutions. The FDIC insures accounts up to \$250,000.

The District's pooled and non-pooled deposits are categorized to give an indication of the level of risk assumed by the District at June 30, 2010. The categories are described as follows:

Category 1 – Insured or collateralized with securities held by the District or by its agent in the District's name.

Category 2 – Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.

Category 3 – Uncollateralized

Deposits, categorized by level of risk, are:

	Bank Balance	Category			Carrying Amount
		1	2	3	
Pooled deposits					
Pooled cash and certificates of deposit	\$21,221,615	\$ 250,000	\$20,971,615	\$ -	\$21,121,380
Non-pooled deposits					
General fund	50,000	50,000	-	-	50,000
Proprietary funds	849,388	849,388	-	-	842,897
Total deposits	<u>\$22,121,003</u>	<u>\$1,149,388</u>	<u>\$20,971,615</u>	<u>\$ -</u>	<u>\$22,014,277</u>

Investments are stated at fair value. For fiscal year 2010, the District invested only in U.S. Treasury bills, other federal obligations, or certificates of deposits within federally insured banks. The District records all interest revenue related to investment activities in the respective funds.

NOTE C – RESERVED/RESTRICTED FUNDS

The Board of Directors, by resolution, has established a sinking fund and reserved/restricted cash accounts for various purposes. All of the accounts are fully funded at their required levels at June 30, 2010. The following is a summary of the reservations placed on cash and investments for the year ended June 30, 2010:

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE C – RESERVED/RESTRICTED FUNDS (Continued)

General Sinking Funds:

Unrestricted But Reserved Certificate of Deposit:	\$	50,000
---	----	--------

Unrestricted But Reserved Cash Accounts:

Reserved for Wetland Mitigation and the development of future wetlands.		244,917
---	--	---------

The Board of Directors, by resolution has reserved funds to be spent on costs incurred for Watershed Projects (WPRB-5, DS-15A, and Zorinsky Basin 1).		80,500
---	--	--------

The Board of Directors, by resolution and in accordance with the Interlocal Cooperation Act Agreement, has reserved funds to reimburse parties to this agreement that incurred costs as a result of the removal of ice jams.		115,091
--	--	---------

Restricted Cash Accounts:

The Board of Directors, by resolution, has established a bond escrow which shall be restricted for use on the specific projects including Pigeon Jones, Western Sarpy Clear Creek, Waterloo Levee, WPRB-5, Dam Site 15-A, and Zorinsky Basin 1.		13,109,775
---	--	------------

Total reserves	\$	<u>13,600,283</u>
----------------	----	-------------------

Proprietary Sinking Funds:

In compliance with loan covenants for the notes described in Note H, the Proprietary Funds have restricted \$404,271. Thurston County has restricted a certificate of deposit in the amount of \$64,271 and Washington County Rural Water #2 has restricted cash in the amount of \$340,000. These amounts are restricted for the issues listed below:

Issue	Amount
Thurston County Rural Water	\$ 48,431
Washington County Rural Water #2	340,000
Total reserve requirement	<u>\$ 388,431</u>

Interest on these funds is reported as District earnings, with earnings on the reserved cash accounts attributed to specific projects.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE D – INTERNAL BALANCES/INTERFUND PAYABLES AND RECEIVABLES

Outstanding balances between funds reported as "due to/due from other funds" include outstanding charges by one fund to another for services, goods, or other miscellaneous receivables/payables between funds. Balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." Interfund balances at June 30, 2010, consisted of the following individual fund receivables and payables:

Due to	Due from	Amount
General Fund	Thurston County Rural Water	\$ 10,370
General Fund	Washington Co. Rural Water #1	33,804
General Fund	Dakota County Rural Water	33,011
General Fund	Washington Co. Rural Water #2	12,133
Improvement Project Area (IPA)	General Fund	860
		<u>\$ 90,178</u>

NOTE E – DUE TO/FROM FUNDING AGENCIES

Revenue from governmental grants and contracts are recognized as earned when all applicable eligibility requirements are met. Funds received from the various agencies less than or greater than the expenditures of the program are recorded as assets or liabilities, respectively. At June 30, 2010, \$410,709 was due from funding agencies.

NOTE F – RECEIVABLE FROM DEVELOPER/INSTALLMENT RECEIVABLES

General Fund Receivable:

The District entered into an agreement with a property developer whereby the District sold approximately 4 acres of land to the developer for \$604,000 in March of 2006. Terms of the agreement called for a cash down payment of \$24,000, a 7.5% interest bearing note in the amount of \$140,000 due, with accrued interest, in March 2011, and a non-interest bearing note in the amount of \$400,000 also due in March 2011. Accounting principles generally accepted in the United States of America require the imputation of interest when a long-term note bears no interest. Accordingly, the non-interest bearing note has been discounted to its present value in the accompanying financial statements.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE F – RECEIVABLE FROM DEVELOPER/INSTALLMENT RECEIVABLES (Continued)

Proprietary Funds Receivable:

Installment receivables due under interlocal agreements bear interest at rates ranging from 4% to 4.5% and have initial terms of 10 years. Installment receivables were reduced for unearned finance charges of \$223,814 at June 30, 2010. Unearned finance charges are amortized to interest income using a method that approximates the interest method.

Details of installment receivables at June 30, 2010 are as follows:

Due in:

2011	\$ 412,471
2012	396,934
2013	383,816
2014	370,062
2015	356,000
Gross installment receivables	1,919,283
Less: unearned finance charges	(223,814)
Installment receivables, net	<u>\$ 1,695,469</u>
Current balance	\$ 337,318
Long-term balance	<u>1,358,151</u>
	<u>\$ 1,695,469</u>

NOTE G – CAPITAL ASSETS

The following is a summary of the capital assets of the General Fund under the full accrual basis of accounting. In the government-wide financial statements, these amounts are included in the Statement of Net Assets. These amounts are not reported in the governmental fund financial statements.

	<u>\$ 13,300,000</u>	<u>\$8,566,634</u>	<u>\$ 4,132,699</u>	<u>\$1,066,833</u>	<u>\$17,432,699</u>	<u>\$9,633,467</u>

NOTE I – ACCUMULATED UNPAID ANNUAL LEAVE AND SICK PAY

The estimated current portion of the liability for vested vacation benefits and sick leave is \$227,031 and \$55,690 at June 30, 2010, respectively. These amounts are recorded as expenditures and liabilities in the General Fund in both the government-wide and fund financial statements. The long-term portion is \$88,163 and \$267,711, respectively, at June 30, 2010. These amounts are recorded as non-current liabilities in the government-wide Statement of Net Assets and are not recorded in the governmental fund financial statements. The amount of unvested sick leave benefits payable amounts to \$1,293,604 at June 30, 2010, and is not reported as an expenditure or liability in any of the District's June 30, 2010, financial statements.

The change in compensated absences for the year ended June 30, 2010 was as follows:

Governmental-type Activity:	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Compensated Absences	<u>\$ 585,092</u>	<u>\$ 53,503</u>	<u>\$ -</u>	<u>\$ 638,595</u>	<u>\$ 282,721</u>

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE J – OPERATING LEASE

The District entered into a leasing agreement for two copy machines in February 2007. The District pays \$705 per month plus applicable taxes for the 60-month lease, as well as a charge per copy that is paid quarterly. During fiscal year 2010, the District's operating lease expense was \$8,458. Following is a schedule of the future minimum lease payments.

Year ending June 30,	Amount
2011	\$ 8,458
2012	5,639
Future minimum lease payments	\$ 14,097

NOTE K – EMPLOYEES' RETIREMENT PLAN

All of the District's eligible employees participate in the Nebraska Association of Resources Districts Employees' Governmental Retirement Plan, a statewide multiple-employer retirement system covering all eligible employees of Natural Resources Districts within the State of Nebraska.

All employees who are employed for a minimum of six months, are regularly scheduled to work at least thirty-seven and one-half hours per week, and are age nineteen or older are eligible to participate in the State retirement plan. The District requires all full-time employees to participate. Participants become fully vested after five years, which is applicable only to the employer's contribution.

Plan participants are required to contribute 5.5% of their compensation each pay period, and the District is required to contribute 6.0% of the employee's compensation for each pay period. The District's contributions for the year ended June 30, 2010, were \$163,753, the required contribution.

NOTE L – COMMITMENTS AND CONTINGENCIES

The District has committed future funds to several ongoing and new projects and cost share agreements. Since the future expenditures will be included in the District's future budgets and are part of the District's function, these commitments have not been recorded in the District's financial statements.

The District engages in land development projects and occasionally invokes eminent domain to acquire the required land to undertake the project. The value of the land acquired by the District when eminent domain is invoked is determined by either a board of appraisers in the affected county, or through the judiciary. The amount of payments that may be required for land, if any, is unknown at June 30, 2010.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE L – COMMITMENTS AND CONTINGENCIES (Continued)

The District participates in various federal and state assisted grant and contract programs that are subject to review and audit by the grantor agencies. Entitlement to these resources is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal and state regulations, including the expenditure of resources for allowable purposes. Any revision or disallowance resulting from a federal or state audit may become a liability of the District. The District's management believes such revisions or disallowances, if any, will not be material to the accompanying financial statements.

Certain conditions may exist as of the date of the financial statements which may result in a loss to the District, but which will only be resolved when one or more future events occur or fail to occur. The District's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the District or unasserted claims that may result in such proceedings, the District's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein. At June 30, 2010, a reasonable estimate could not be determined for any potential loss contingencies.

The District has a note receivable from a developer. Procedures by the District to collect this note voluntarily have commenced. Under provisions of the District's trust deed, possible collection actions include selling the secured property as a public site.

NOTE M – TOTAL COLUMNS ON COMBINED AND COMBINING STATEMENTS

The governmental fund total columns on the combined and combining statements are captioned "memo only" or "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with accounting principles generally accepted in the United States of America, nor is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data on the fund financial statements, but have been made on the government-wide financial statements.

NOTE N – FIDUCIARY FUND: PAPILLION CREEK WATERSHED PARTNERSHIP

The Papillion Creek Watershed Partnership (PCWP) was created in 2001 through an inter-local agreement to proactively deal with the demands on the Papillion Creek drainage area and to develop an implementation plan that addresses solutions to water quantity and quality problems.

The Papillion Creek Watershed consists of the land area that conveys water to the Missouri River.

The PCWP is comprised of 9 local governments that are wholly or partially in the Papillion Creek Watershed. These local governments fund engineering studies, but do not do any actual construction projects. The District is the administering agent.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
Year Ended June 30, 2010

NOTE O – PRIOR PERIOD ADJUSTMENT

The District has made a prior period adjustment to record amounts due from entities improperly excluded from the general fund in the prior year in the amount of \$576,988. The District has made a prior period adjustment to record grant receivables improperly excluded from the general fund in the prior year in the amount of \$223,979. In addition, the District improperly excluded a notes receivable balance from the Washington County #2 proprietary fund in the prior year in the amount of \$2,031,967. The effect of these three adjustments on net assets is \$2,832,934.

Statement of Activities:

	Beginning balance (As previously reported)	Prior period adjustment	Beginning balance (As restated)

The accompanying notes to budgetary comparison schedule
are an integral part of this statement.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO BUDGETARY COMPARISON SCHEDULE
Year Ended June 30, 2010

NOTE A – BUDGETS AND BUDGETARY ACCOUNTING

The District follows these procedures in establishing the budgetary data reflected in the required supplementary information in accordance with the statutory requirements of the Nebraska Budget Act:

On or before August 1, District management prepares and transmits a budget for each District fund showing the projected requirements, outstanding warrants, operating reserve, cash on hand at the close of the preceding fiscal year, projected revenue collected from sources other than property tax and amount to be raised by property taxation. At least one public hearing must be held by the District's Board of Directors.

On or before September 20, the budget is adopted by the Board of Directors and the amounts provided therein are appropriated. Once approved by the Board of Directors, the legally adopted budget can be modified only with the approval of the Board.

The District Board is authorized to transfer budgeted amounts between departments within any fund through resolution. The Board may allow certain accounts to exceed 110% of their budgeted amount if District personnel provide reasonable justification for doing so before the expenditures occur.

NOTE B – BASIS OF ACCOUNTING

The accompanying budgetary comparison schedule is presented on the cash basis of accounting.

NOTE C – BUDGET LAW

The District is required by state law to hold public hearings and adopt annual budgets for all funds on the cash basis of accounting. Total expenditures for each fund may not exceed the total budgeted expenditures. Any revisions to the adopted budget of total expenditures to any fund require a public hearing.

The accompanying note to schedule of expenditures of federal awards is an integral part of this statement

**PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2010**

NOTE A – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Papio-Missouri River Natural Resources District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the financial statements.

For the year ended June 30, 2010, the District exceeded the \$500,000 expenditure threshold, which requires additional audit procedures and reporting in accordance with OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

AUDITING STANDARDS***

DRAFT

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT
AUDITING STANDARDS**

To the Board of Directors
Papio-Missouri River Natural Resources District
Omaha, Nebraska

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Papio-Missouri River Natural Resources District (the District) as of and for the year ended June 30, 2010, and have issued our report thereon dated November XX, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs (2010-1 and 2010-2) to be material weaknesses.

A *significant deficiency* is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs (2010-3) to be a significant deficiency.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS (Continued)**

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of the District's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted other matters involving the internal control over financial reporting that we have reported to the District's management in a separate letter dated November XX, 2010.

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the District's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Board of Directors, management, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

DRAFT

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Directors
Papio-Missouri River Natural Resources District
Omaha, Nebraska

Compliance

We have audited the compliance of the Papio-Missouri River Natural Resources District (the District) with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2010. The District's major federal program is identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with these requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 (Continued)**

compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Directors, management, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

No

DRAFT

**PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (Continued)
Year Ended June 30, 2010**

B. FINDINGS – FINANCIAL STATEMENT AUDIT

MATERIAL WEAKNESSES

2010-1 Condition: During fieldwork we noted that the District did not properly record receivables due from other entities as of the year end. In addition, the District did not properly record the balance of two note receivables for the proprietary fund Washington County #2.

Criteria: The responsibility for the proper reporting of receivables resides with the management of the District.

Cause: These receivables were part of an interlocal agreement and while they were properly tracked by the project manger, the balances were not properly recorded by the accounting department.

Effect: Failure to record these receivables due from other entities and notes receivable resulted in a material misstatement of the District's financial statements.

Recommendation: We recommend the District develop a process for communication and accounting of such receivables.

Response:

**PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (Continued)
Year Ended June 30, 2010**

B. FINDINGS – FINANCIAL STATEMENT AUDIT

MATERIAL WEAKNESSES (Continued)

2010-2 Condition: Federal expenditures were improperly reported in prior years' Schedule of Expenditures of Federal Awards. In addition, a prior period adjustment in the amount of \$223,979 was made to correct the beginning due from agency amount for the Section 319 Project 56-0788 Whitted Creek Rehabilitation Project.

Criteria: The responsibility for the proper reporting of federal expenditures and federal awards resides with the management of the District.

Cause: The District has a history of lack of communication between the accounting department and project managers regarding federal funding.

Effect: The District failed to record grant revenues in the proper period. While this adjustment did not affect our major program determination in prior years, failure to track federal expenditures or reimbursement created inaccuracies in the District's Schedule of Expenditures of Federal Awards and the information reported on the Data Collection Form.

Recommendation: We recommend continued adherence to the District's grant monitoring process necessitating strong cooperation and communication between the accounting department and project manager.

Response:

**PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (Continued)
Year Ended June 30, 2010**

B. FINDINGS – FINANCIAL STATEMENT AUDIT

SIGNIFICANT DEFICIENCY

2010-3 Condition: Property and equipment disposals are not reconciled to the general ledger. During our fixed asset disposal testing we tested fourteen assets, from which we noted that two assets marked for deletion are still used by the District.

Criteria: The responsibility for the proper tracking of property, plant and equipment disposals is required by *Governmental Accounting Standards Board Statement No. 34*.

Cause: The District does not have a formal procedure to ensure that disposals of fixed assets are reported to the accounting department as they occur.

Effect: Without such a procedure, the likelihood increases that disposals are not being recorded.

Recommendation: We recommend a formal policy to ensure the reporting of fixed asset disposals should be adopted and should include the necessary level of approval for the disposal. This information should be reported to the accounting department on a timely basis. A standardized form could be developed to provide adequate accounting documentation and to provide evidence of adherence to the District policy.

Response:

**PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (Continued)
Year Ended June 30, 2010**

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAM AUDIT

No significant deficiencies or material weaknesses were noted during the major federal awards program audit.

DRAFT

PRIOR YEAR AUDIT FINDINGS

DRAFT

**PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
PRIOR YEAR AUDIT FINDINGS
Year Ended June 30, 2010**

FINANCIAL STATEMENT AUDIT

No significance deficiencies were noted during the prior year.

MAJOR FEDERAL AWARD PROGRAM AUDIT

No significance deficiencies were noted during the prior year.

DRAFT

To the Board of Directors
Papio-Missouri River Natural Resources District
Omaha, Nebraska

In planning and performing our audit of the financial statements of Papio-Missouri River Natural Resources District (the District) as of and for the year ended June 30, 2010, in accordance with auditing standards generally accepted in the United States of America, we considered the District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

We consider the following deficiencies in the Company's internal control to be material weaknesses:

Recording Receivables

During fieldwork we noted that the District did not properly record receivables due from other entities as of the year end. These receivables were part of an interlocal agreement and while they were properly tracked by the project manger, the balances were not properly recorded by the accounting department. We recommend the District develop a process for communication and accounting of such receivables.

Schedule of Expenditures of Federal Awards

The District has a history of lack of communication between the accounting department and project managers regarding federal funding. As a result, federal expenditures were improperly reported on the prior years' Schedule of Expenditures of Federal Awards. Should this control deficiency persist it will continue to impact OMB Circular A-133 Compliance, the Districts Schedule of Expenditures of Federal Awards, and the information contained on the Data Collection Form. We strongly recommend adherence to the District's grant monitoring process necessitating stronger cooperation and communication between the accounting department and project managers.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance. We consider the following deficiency in the District's internal control to be a significant deficiency:

Fixed Asset Disposals

During our fixed asset disposal testing we tested fourteen assets, from which we noted that two assets marked for deletion are still used by the District. The District does not have a formal procedure to ensure that disposals of fixed assets are reported to the accounting department as they occur. Without such a procedure, the likelihood increases that disposals are not being recorded. This often leads to a situation where fixed assets that physically exist within an entity and the asset listing used for accounting purposes do not reconcile. We recommend a formal policy to ensure the reporting of fixed asset disposals should be adopted and should include the necessary level of approval for the disposal. This information should be reported to the accounting department on a timely basis. A standardized form could be developed to provide adequate accounting documentation and to provide evidence of adherence to the District policy.

In addition, during our audit, we noted certain matters involving the internal control and other operational matters that are presented for your consideration. This letter does not affect our report dated November XX, 2010 on the financial statements of the District. We will review the status of these comments during our next audit engagement. Our comments and recommendations, all of which have been discussed with appropriate members of management, are intended to improve the internal control or result in other operating efficiencies. We will be pleased to discuss these comments in further detail at your convenience, perform any additional study of these matters, or assist you in implementing the recommendations. Our comments are summarized as follows:

Journal Entries

During the audit, it was noted that some of the journal entries were not reviewed and the General Journal Entry Form was not being used for all entries. Journal entry testing is an important test of management's ability to override controls. We recommend that management use the General Journal Entry form for all entries. The District's accounting personnel should review and initial every entry made. In addition, journal entries should always be supported by appropriate documentation and approval. Good documentation serves as an accounting record and facilitates future follow-up as well as additional insight for other users.

Segregation of Duties

On occasion, the receptionist will enter the water receipts and take the deposit to the bank. While effective segregation of duties policies and procedures have been designed by the District, as noted above these policies and procedures are not always adhered to by the District's staff. Duties should be segregated to serve as a check and balance of the employee's integrity and to maintain the best control system possible. For this reason, we feel that the District should adhere to their segregation of duties policies as closely as possible.

Accounts Payable

We noted that the District dated all checks signed at the July Board meeting as of year end causing the checks to be improperly excluded from the accounts payable balance at year end. Checks should not be dated in the District's accounting system prior to the signature date and we recommend the District discontinue this practice.

In addition, during our search for unrecorded liabilities we found several invoices that were improperly excluded from the accounts payable balance at year end. This is not unusual given the nature of many of the construction invoices that the District receives. These invoices are commonly submitted months after the services take place. Cutoffs are critical for the accuracy of the accounts payable balance and we recommend the District closely scrutinize invoices several months subsequent to year end.

Leased Copiers

Copiers and scanners contain a hardrive that stores images of the documents used by the machines. These images have the potential to contain sensitive information. When an entity leases rather than purchases their copiers we recommend they consider wiping the hardrive clean for confidentiality purposes.

Accounting Department Office Facilities

The accounting department maintains a significant amount of sensitive files and data and we feel it is important to provide proper safeguards over these assets. Currently, the accounting department is located in an open desk area of a public building. We recommend the District consider moving the accounting department in a more secure location.

Contract Review

The District enters into a significant amount of complex contracts throughout the ordinary course of business. We recommend the District consider an additional contract review engagement be performed to ensure all contracts are being properly followed by all parties involved.

Bond Projection

The District recently issued a significant amount of revenue bonds. Should the District have concerns regarding their ability to continue to meet bonding debt requirements, we recommend they have a more formal projection performed.

Recent Accounting Pronouncement

The Governmental Accounting Standards Board (GASB) issued GASB Statement No.54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2010. The District will be required to adopt GASB 54 in its 2011 annual financial statements.

We believe that the implementation of these recommendations will provide the District with a stronger system of internal control while also making its operations more efficient. We will be happy to discuss the details of these recommendations with you and assist in any way possible with their implementation.

This communication is intended solely for the information and use of management and the Board of Directors and is not intended to be and should not be used by anyone other than these specified parties.

Omaha, Nebraska
November XX, 2010

MEMORANDUM

To: Board of Directors
Subject: Response to FY 2010 Audit Management Letter
Date: November 5, 2010
From: Carey Fry, District Accountant
John Winkler, General Manager

Below are our responses to the issues raised in the draft management letter from Bland and Associates received on November 3, 2010.

Recording Receivables

This timing issue resulted from ongoing receivables that initially should have been recorded several years ago. Now that the current accounting staff is aware of these receivables, we can make adjustments at the end of the year to recognize the revenue in the proper period for the financial statements. For our budget reports, the revenue has been recognized when received, as is appropriate under the cash basis.

Schedule of Expenditures of Federal Awards

Although the process improved greatly during FY10, we did discover a few issues from prior years while working on the current year. Staff recommends an information session with Bland and Associates, the project managers, and accounting to make sure that everyone involved understands reporting requirements. The reorganization of our chart of accounts by project beginning in FY11 will also help us to make sure that expenditures are reported correctly.

Fixed Asset Disposals

We attempted this year to purge the asset listing of items suspected to have been disposed in the past. Staff agrees with the recommendation that a standard form be used for both additions and disposals to facilitate communication between departments. This standard form is being drafted for immediate implementation.

Journal Entries

During FY10, the accounting department kept a binder of handwritten journal entry forms with signed approvals. We are not aware that any forms are missing. The new system implemented in FY11 generates journal entry sheets with information on which user created and posted each entry. We feel this will be an improvement from an audit standpoint for several reasons. Data entry from a handwritten form may be prone to error, and it would be harder to tamper with approval information captured electronically. At a time when many businesses are moving towards paperless offices, there is no reason to continue handwritten forms.

Documentation is mostly maintained separately from the journal entries, as the bank statements and the rural water reports are kept in their own files. We have found this to be the most efficient organization.

Segregation of Duties

For cross-training purposes, the receptionist was taught to enter receipts into the rural water system. Although her work was reviewed by the accounting assistant, we will take better care in future to ensure that she does not take the same deposits to the bank. It should be noted that, especially in smaller departments and agencies, perfect segregation of duties at all times is unrealistic.

Accounts Payable

Checks to be approved at July board meetings need to be dated June 30 to arrive at the cash on hand balance at the end of the year for budget purposes. Otherwise it would appear that we had quite a bit more money for the following fiscal year than we actually did, as June's expenditures would not have been deducted. We can make an adjusting entry to reverse this for the audited statements in future years.

To some degree, unrecorded liabilities are an unfortunate fact of life. Our auditors are correct in that invoices continue to trickle in months after the fiscal year ends. However, we must cut them off at some point to submit our trial balance for their review, which takes place well before the recommended "several months subsequent to year end."

Leased Copiers

The District will work with the vendor and our I.T. Department to wipe the hard drive clean before the copier leaves the District's possession.

Accounting Department Office Facilities

The District has presented plans to the Board of Directors to remodel the District offices and to move the Accounting Department into a locked and secured area. However, due to budgetary constraints the District is not in a position to undertake this effort at this particular point in time.

Contract Review

The District will take this recommendation under advisement, however, budgetary constraints and other factors will need to be weighed.

Bond Projection

The District does not have concerns regarding its bonding debt requirements at this time.

Recent Accounting Requirements

The District understands the GASB-54 reporting requirements and understands it will need to adopt GASB 54 in its 2011 financial statements.

District management works cooperatively with the current District Auditor Bland and Associates to implement recommendations to make the District's internal control system more effective and efficient. As noted in the above responses to the auditor's recommendations, the District has proactively taken steps to address the issues raised by the auditor and to further strengthen its financial processes and procedures.
