PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

**TENTATIVE FOR DISCUSSION
PURPOSES ONLY**

Year ended June 30, 2006

This discussion and analysis of the financial performance of Papio-Missouri River Natural Resources District (the District) provides an overview of the District's financial activities for the fiscal year ended June 30, 2006. It should be read in conjunction with the District's financial statements, which follow. The discussion primarily focuses on the District's general fund, although the proprietary funds are also discussed.

FINANCIAL HIGHLIGHTS

- With the exception of the increase in Land and Infrastructure, the District's net assets remained virtually unchanged for the year. Net assets increased by \$4,758,346 which is an 11.6% increase when compared to the previous fiscal period.
- Total net assets are comprised of the following:
 - 1) Capital assets, net of related debt, of \$29,171,484. Depreciable and non-depreciable assets, net of accumulated depreciation, are reduced for the outstanding debt related to the purchase or construction of capital assets.
 - 2) Restricted and Sinking Fund net assets in the aggregate of \$1,829,906. These funds are subject to debt covenants, federal laws, and related regulations.
 - 3) Unrestricted net assets of \$17,841,051. These assets are available to maintain the District's continuing obligations.
- During the year, the District generated \$21,347,669 of property taxes and other revenues. This is an increase from last year's revenues of \$13,697,744.
- Total liabilities of the District increased by \$4,371,076 to \$5,940,018 for the fiscal year ended June 30, 2006.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's Discussion and Analysis introduces the District's basic financial statements, which include the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements
- Supplemental information

Government-wide Financial Statements

The District's annual report includes two government-wide financial statements: the Statement of Net Assets and the Statement of Activities. These statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Year ended June 30, 2006

**TENTATIVE FOR DISCUSSION
PURPOSES ONLY**

Both government-wide financial statements distinguish governmental activities of the District that are principally supported by taxes and intergovernmental revenues, such as grants, from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include general government administration, public services such as trail and campground maintenance and educational materials, and recreation such as fishing and camping. The District's business-type activities include four rural water districts and four other trail and waterway construction and preservation projects.

Statement of Net Assets

This is the District-wide statement of financial position presenting information that includes all of the District's assets and liabilities, with the difference reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall financial health of the District would extend to other non-financial factors, such as the condition of the District's capital assets, in addition to the financial information provided in this report.

Statement of Activities

This is the District-wide statement which reports how the District's net assets changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the District's distinct activities or functions on revenues provided by property tax collections.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District's system of internal control employs funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all others are combined into a single, aggregate presentation.

The District's two types of funds are the Governmental Fund and the Proprietary Funds. The governmental fund encompasses essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental fund. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in the budgeting process when evaluating the annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Year ended June 30, 2006

TENTATIVE FOR DISCUSSION
PURPOSES ONLY

Since the government-wide focus includes the long-term view and the near term, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included in the basic financial statements for the general fund. These demonstrate compliance with the District's adopted and final revised budget.

Proprietary funds generally report services for which the District charges customers a fee. These enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. The Dakota, Washington #1 and #2, and Thurston County Rural Water Districts, as well as four waterway reconstruction projects, comprise the District's proprietary funds.

Proprietary fund statements provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements but with more detail for major enterprise funds. Individual fund information for non-major enterprise funds is found in combining statements in a later section of this report.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

Supplemental Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental information concerning the District's non-major proprietary funds and expenditures of federal awards.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District implemented the new financial reporting model used in this report beginning with the fiscal year ended June 30, 2003. Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net assets may be observed and used to discuss the changing financial position of the District as a whole. The table on the next page summarizes the District's net assets.

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT

Year ended June 30, 2006

Summary of Net Assets

	Governmental Activities	Business-Type Activities	Total
Current and other assets	\$ 18,493,895	\$ 2,578,618	\$ 21,072,513
Capital assets, net of accumulated depreciation	<u>29,259,852</u>	<u>7,248,103</u>	<u>36,507,955</u>
Total assets	47,753,747	9,826,721	57,580,468
Long-term liabilities	193,019	5,385,944	5,578,963
Other liabilities	<u>2,578,821</u>	<u>580,243</u>	<u>3,159,064</u>
Total liabilities	2,771,840	5,966,187	8,738,027
Net assets:			
Invested in capital assets, net of related debt	29,171,484	-	29,171,484
Restricted	634,863	507,808	1,142,671
Unrestricted	14,488,325	3,352,726	17,841,051
Sinking Fund	<u>687,235</u>	<u>-</u>	<u>687,235</u>
Total net assets	<u>\$ 44,981,907</u>	<u>\$ 3,860,534</u>	<u>\$ 48,842,441</u>

The District reported positive balances in net assets for both governmental and business-type activities. The change net assets, an increase of \$4,758,346 for governmental activities and \$338,964 for business-type activities, was due to the respective excesses of revenues over expenditures during fiscal year 2006.

The table on the next page summarizes the District's changes in net assets from revenues and expenditures. The District is heavily reliant on property taxes to support governmental operations, since taxes provide 83% of the District's total governmental revenues.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Fund

The General Fund is the District's primary operating fund. It is used to account for all financial resources except those required to be reported in a separate fund. The fund balance of the General Fund increased by \$5,261,985 to \$9,519,725.

Proprietary Funds

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information for the current fiscal year. The major proprietary funds for the District are the Dakota, Washington #1, Washington #2, and Thurston County Rural Water Districts. The fund balances for these funds increased \$377,711. The fund balance for the non-major proprietary funds decreased by \$38,746. The total net assets increase by \$338,964 to \$3,860,534.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets, net of accumulated depreciation, for governmental and business-type activities, as of June 30, 2006, was \$29,259,852 and \$7,248,103, respectively. The total increase in this net investment was 7.5% for governmental and 29.7% for business-type activities. The table on the next page summarizes the District's capital assets net of accumulated depreciation and compares the balances at the current year-end to the previous year-end balances.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Papio-Missouri River Natural Resources District's Board of Directors adopts a budget each fiscal year that complies with the reporting regulations imposed by the State of Nebraska. This budget can be modified during the year with the approval of the Board. Economic factors, such as property tax rates and the availability of federal and state funding, play a major role in the District's budgeting process.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the District's finances, comply with finance-related laws and regulations, and demonstrate the District's commitment to public accountability. If you have questions about this report or would like to request additional information, contact the District Accountant at 8901 South 154th Street, Omaha, NE 68138.

INDEPENDENT AUDITORS' REPORT ON BASIC FINANCIAL STATEMENTS AND
SUPPLEMENTAL SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

To The Board of Directors
Papio-Missouri River Natural Resources District
Omaha, Nebraska

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Papio-Missouri River Natural Resources District (the District), a political subdivision of the State of Nebraska, as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements but is supplemental information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2006, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

**TENTATIVE FOR DISCUSSION
PURPOSES ONLY**

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information on pages 30 to 41 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards on pages 42 and 43 is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

RECONCILIATION OF THE GENERAL FUND BALANCE SHEET TO THE STATEMENT OF NET ASSETS

June 30, 2006

Total Fund Balances - Governmental Funds \$ 9,601,095

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the fund financial statements:

Land and infrastructure	\$	24,854,632	
Capital improvements		2,074,977	
Buildings and improvements		3,895,893	
Vehicles and equipment		4,287,259	
Accumulated depreciation		<u>(5,852,909)</u>	
			29,259,852

Liabilities which are not due and payable in the current period are therefore not reported in the governmental funds:

Long-term debt		(88,368)	
Compensated absences		(171,331)	

Revenues deferred in the prior period now recognized as revenue 6,380,659

Net Assets of Governmental Activities \$ 44,981,907

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT
RECONCILIATION OF THE CHANGE IN FUND BALANCE - GENERAL FUND
TO THE CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES

June 30, 2006

Net Change in Fund Balances - Total Government Funds \$ 5,261,985

Amounts reported for governmental activities in the statement of net assets are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlays and capital asset expenditures	2,520,631
Depreciation expense	(499,056)

Repayment of long-term debt is reported as an expenditure in governmental funds. In the statement of net assets, the repayment reduces long-term liabilities.

Repayments	63,623
------------	--------

Full accrual accounting records revenues when earned. Modified accrual records revenues that are measurable and available.

Difference in property tax revenue accrual	(2,588,837)
--	-------------

Change in Net Assets of Governmental Activities	\$ 4,758,346
---	--------------

PAPIO-MISSOURI RIVER NATURAL RESOURCES DISTRICT

NOTES TO BASIC FINANCIAL STATEMENTS

Year ended June 30, 2006

TENTATIVE FOR DISCUSSION
PURPOSES ONLY

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Papio-Missouri River Natural Resources District (the District) is presented to assist in understanding the District's government-wide and governmental fund financial statements. These financial statements and notes are representations of the District's management who is responsible for their integrity and objectivity. These accounting policies have been consistently applied in the preparation of the government-wide and governmental fund financial statements.

District Activities

The District is one of 23 natural resource districts organized under the laws of the State of Nebraska to aid in the conservation, protection, development, and management of the natural resources of the State. Furthermore, the District participates in jointly funded governmental improvement projects. These projects are cost-sharing arrangements, as the District does not retain an ongoing financial interest in or responsibility for the projects.

Reporting Entity

The District, for financial reporting purposes, includes all funds relevant to the operations of the District. The financial statements of the District include those entities that are separately administered organizations controlled by or dependent on the District. Control or dependence is determined on the basis of budget adoption, taxing authority, funding, and legislative intent.

Based on the foregoing criteria, the financial statements of the following organizations are included in the accompanying government-wide and fund financial statements:

- Dakota County Rural Water Project
- Elkhorn River Bank Stabilization Project
- Thurston County Rural Water Project
- Washington County Rural Water Project #1
- Washington County Rural Water Project #2
- Elkhorn Breakout
- Elk/Pigeon Creek Drainage
- Western Sarpy Drainage Project

Of these funds, the Dakota, Thurston, and Washington County #1 and #2 Rural Water Projects are major funds presented individually in the government-wide financial statements. These funds account for fees charged for rural water services provided to residents in their respective counties. The remaining non-major funds are presented in the aggregate to comply with Government Accounting Standards Board (GASB) Statement No. 34. The District has no component units and is not a component unit of any other government entity.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

The operations of each fund of the District are accounted for with a separate set of self-balancing accounts comprised of its assets, liabilities, fund equity, revenues, and expenditures (or expenses), as appropriate. District resources are allocated to and accounted for in an individual fund based upon the purposes for which they are spent and the means by which the spending activities are controlled. The various funds are grouped into generic fund types in the government-wide and fund financial statements of this report as follows:

General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Proprietary Funds

Proprietary Funds are used to account for the operation of the District's activities that are financed and operated in a manner similar to those found in private business enterprises. Generally, the intent of the governing body is that the cost and expense of providing goods or services to others on a continuing basis be financed or recovered primarily through sales or other forms of user charges. All Proprietary Funds are accounted for on an economic resources measurement focus. This means that all assets and liabilities (whether current or non-current) associated with their activity are included on their statement of net assets.

The Proprietary Funds apply all Governmental Accounting Standards Board (GASB) pronouncements as well as the Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net assets and the statement of activities, which report financial information for the District as a whole. Individual funds are not displayed nor are internal activity between or within funds eliminated. The accrual basis of accounting and the total economic resources measurement focus are used. The statements distinguish governmental activities, which are generally supported by property taxes and grants from other governments, from business-type activities, which are generally financed with fees charged to external customers.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of

NOTES TO BASIC FINANCIAL STATEMENTS (Continued)

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements (Continued)

similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

Program revenues include:

1. Charges for services, which report fees and other charges to users of the District's services,
2. Operating grants and contributions, which finance annual operating activities including restricted investment income, and
3. Capital grants and contributions, which fund the acquisition, construction, or rehabilitation of capital assets.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Expenditures are recorded when the related fund liability is incurred.

Operating revenue reported in the proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

Allocation of Indirect Expenses

The District is responsible for paying all employee wages and vehicle and fuel expenses of the rural water district proprietary funds. The portion of these expenses directly attributable to the proprietary funds, plus a 15 percent surcharge to cover administrative costs, is billed to and reimbursed by each rural water district. General administration services include overall District management, centralized budgetary formulation and oversight, accounting, payroll, investing and cash management, personnel services, and other general administration services. The actual amount of indirect cost reimbursement received by the District at June 30, 2006, was \$158,835. These reimbursements are included in the general administration expenses in the Statement of Activities.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cost Sharing Reimbursements

The District participates in multiple cost sharing agreements with various other governmental entities, such as the City of Omaha or other area natural resource districts, on a regular basis. These agreements provide funding for recreational trails, water drainage systems, and other improvements that benefit the general public. The District's share of the cost is stated in each of the cost sharing agreements, most often as a maximum amount to be paid. The District normally does not retain an interest in the projects, with the city or other governmental entities providing the routine maintenance as necessary.

Economic Dependency

The District receives the majority of its revenues from property tax rates subject to legislative change and from various grants funded by federal, state, and local governments.

Basis of Accounting

Basis of accounting refers to the timing of the recognition of revenues and expenditures, or expenses, in the accounts and the financial statements.

Property taxes are levied by the counties on September 20 and are delinquent if not paid by April 1 and August 22. The seven counties located within the District collect the taxes. The portion of the property taxes levied by the District is remitted from the counties as the taxes are collected, less a one percent commission. For fiscal year 2006, the taxes levied totaled \$15,730,261 at a tax levy rate of 3.9094%.

In the government-wide financial statements, Exhibits A and B, the governmental funds are accounted for using the accrual basis of accounting. On the accrual basis, all revenue from property taxes is recognized in the period it was levied, regardless of when the cash is collected.

In the fund financial statements, the governmental funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as net current assets. Property tax revenues not collected within 60 days after year-end are recorded as deferred revenues. Delinquent taxes are considered fully collectible, so no allowance for uncollectible taxes is considered necessary.

The placement of a lien against property with delinquent taxes in the various counties is at the discretion of the respective county attorneys. However, the vast majority of delinquent property taxes are purchased through transactions called tax certificate sales. In the event the property owner does not pay the property taxes to the County Treasurer within three years, the holder of the tax certificate has the right to take ownership of the property.

PRELIMINARY FOR DISCUSSION
PURPOSES ONLY

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Grants are recognized when the funds are received or receivable. Expenditures are recognized on the modified accrual basis of accounting as the related expenditures are incurred.

Proprietary Funds are accounted for using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when incurred.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as needed.

Budgetary Data

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Formal budgetary integration is employed as a management control device during the year for the General Fund and Proprietary Funds.
- b. The budget is based on the reporting requirements of the State of Nebraska, which prescribe the cash basis method of reporting. The budget caption, general administration, includes the District's cash and investments of the preceding year-end.
- c. All annual appropriations lapse at year-end.

The statement of revenues, expenditures, and changes in fund balances-budget and actual-General Fund presents comparisons of legally adopted budgets to actual data prepared in accordance with the accounting bases indicated above.

Once approved by the Board of Directors, the legally adopted budget can be modified only with the approval of the Board.

Use of Estimates

Preparing the District's basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Amortization of Bond Expense

The cost of issuing bonds is amortized on the straight-line method over the life of the bonds.

**TENTATIVE FOR DISCUSSION
PURPOSES ONLY**

Year ended June 30, 2006

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets are recorded at cost. Expenditures for major additions and improvements over \$5,000 are capitalized and minor replacements, maintenance, and repairs are charged to expense accounts as incurred. Interest costs incurred on funds used to construct property, plant, and equipment are capitalized and recorded as part of the asset to which it relates and are amortized over the asset's useful life. The interest cost incurred and capitalized at June 30, 2006 was \$162,520 for Washington County Rural Water #2.

When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation of the individual asset are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method for financial statement purposes. The estimated useful lives for significant capital asset categories are as follows:

	<u>Years</u>
Buildings	30
Equipment	5-10
Vehicles	5
Water distribution systems	25-50
Other capital improvements	20-40

Inventories

The Proprietary Fund inventories, consisting primarily of maintenance supplies, are stated at cost. Cost is determined using the first-in, first-out method.

Project Costs

In the governmental fund financial statements, structural improvements (tunnels, reservoirs, drainage systems, or any other projects) constructed by the District for any of its purposes are recorded as expenditures at the time of construction. Major acquisitions of land that may have a future saleable value associated with project costs are reported as capital improvements; land is reported as a current period General Fund expenditure.

The District, for financial statement purposes, capitalizes its public domain costs, infrastructure costs (such as dams, levees, reservoirs and drainage systems), and similar assets. It is the District's policy to record infrastructure at the historical cost of the land. In the government-wide financial statements, structural improvements, land acquisitions, and equipment purchases are included as capital assets in the financial statements.

Cash and Cash Equivalents

The District classifies only actual cash as cash and cash equivalents.

NOTE B - CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents and investments consisted of the following at June 30, 2006:

	<u>Total</u>	<u>General Fund</u>	<u>Proprietary Funds</u>
UNRESTRICTED:			
Cash and cash equivalents	\$ 8,668,199	\$ 7,575,085	\$ 1,093,114
Cash on hand at County Treasurers	<u>284,357</u>	<u>284,009</u>	<u>348</u>
	8,952,556	7,859,094	1,093,462
Investments:			
Certificates of deposit	<u>862,512</u>	-	<u>862,512</u>
Total unrestricted cash, cash equivalents and investments	9,820,068	7,859,094	1,955,974
RESTRICTED:			
Cash and cash equivalents	634,863	634,863	-
Investments:			
Certificates of deposit	557,808	50,000	507,808
U.S. Government Money Market	<u>637,235</u>	<u>637,235</u>	<u>-</u>
	<u>1,195,043</u>	<u>687,235</u>	<u>507,808</u>
Total restricted cash, cash equivalents and investments	<u>1,829,906</u>	<u>1,332,098</u>	<u>507,808</u>
Total cash and investments	<u>\$ 11,644,974</u>	<u>\$ 9,181,192</u>	<u>\$ 2,463,782</u>

Pooled deposits, consisting of cash and certificates of deposit, as categorized for level of risk, cannot be reasonably apportioned between the General Fund and the Proprietary Funds.
