MEMORANDUM

TO: Finance, Expenditure and Legal Subcommittee

FROM: Martin P. Cleveland

SUBJECT: Pigeon/Jones Watershed Structure #3 Easement Agreement

DATE: August 5, 2008

The referenced dam project is located near the west edge of Hubbard, NE, (see enclosed map). The dam was constructed on the Hartnett Family property in 2003. A free easement was provided by the Hartnett’s. In early July 2008, District noticed that James and Jackie Hartnett’s contractor had excavated a hole for a future house basement in the southern edge of the referenced dam site easement area. The excavated hole is 30 ft. by 70 ft by 6 ft.

As seen on the enclosed drawings, this area is immediately south of the auxiliary spillway top of slope line. Normally, no excavations or structures are permitted in this dam easement area.

Further investigation revealed that the District did not have an easement over the entire footprint of the auxiliary spillway. The Hartnett’s have agreed to provide the missing auxiliary spillway area easement the District needs in exchange for the District releasing the easement over the proposed house footprint. Enclosed is an easements agreement to provide for this exchange.

It is Management’s recommendation that the Subcommittee recommend to the Board that the General Manager be authorized to execute the proposed easements agreement with James and Jacqueline Hartnett for Pigeon/Jones Watershed Structure #3, subject to form as approved by District Legal Counsel.
